AR-15 SEMI-AUTO CHROME BOLT CARRIER GROUP

[Rifle Parts](#) > [Bolt Parts](#) > [Bolt Carrier Groups](#)

A Chrome-Plated Bolt-Carrier Group Built for Your Modern AR-15s and Retro Clones

Whether or not you're looking to outfit your top-of-the-line tactical rifle with an easily cleaned, low-friction bolt-carrier group or you're aiming for a period-correct Model 601 or even an XM16E1, then the Brownells AR-15 Chrome Bolt Carrier Groups are a great option to finish off your build. Each of these Brownells AR-15 Chrome Bolt Carrier Groups features a bolt machined from 9130 tool steel sitting inside of a carrier machined from durable 8620 hardened steel. Both of these essential components, as well as the extractor, gas key and cam pin, are all plated with chrome to provide protection against corrosion, as well as offer a slick, low-friction surface for smoother operation and easier cleaning. These bolt-carrier groups are built to work in any rifle chambered in 5.56 NATO, .223 Remington or 300 Blackout. However, they are not compatible with full-auto lower receivers. For those looking to finish up a retro build, the Brownells AR-15 Chrome Bolt Carrier Groups can be had with or without forward-assist serrations. The non-serrated model is correct for use on early AR-15s, like the Air Force Model 601, while the serrated model is correct for the early XM16E1 rifles of the mid-1960s.

AR15 SemiAuto Chrome Bolt Carrier Groups

Safety Instruction Guide

Introduction

Thank you for choosing the Brownells AR15 SemiAuto Chrome Bolt Carrier Groups. This guide provides essential safety instructions to ensure the safe use and handling of your product. Please read this document carefully before installation and use.

General Safety Guidelines

- Ensure that the product is used only in accordance with the manufacturer's instructions.
- Always handle the bolt carrier group with care, treating it as a component of a firearm.
- Keep the product out of reach of children and unauthorized users.
- Inspect the product for any signs of damage or wear before use.
- Follow all local laws and regulations regarding firearm components.

Specific Safety Precautions for Use

- Only use the bolt carrier group in firearms chambered for 5.56 NATO, .223 Remington, or 300 Blackout.
- Do not attempt to use the bolt carrier group with fullauto lower receivers, as this may cause malfunction or injury.
- Ensure that the firearm is unloaded before installation or maintenance of the bolt carrier group.
- Always wear appropriate safety gear, including eye protection, when handling firearms.
- Be aware of your surroundings and ensure a safe area when handling or firing the firearm.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is completely unloaded and pointed in a safe direction.
- Gather necessary tools for installation, such as a punch and hammer.

2. Installation:

- Remove the existing bolt carrier group from the firearm by pushing out the rear takedown pin and separating the upper and lower receivers.
- Carefully insert the Brownells AR15 Chrome Bolt Carrier Group into the upper receiver.
- Align the bolt carrier group with the receiver and ensure it is seated correctly.
- Reattach the upper and lower receivers by inserting the rear takedown pin.
- Check the functionality of the charging handle and ensure smooth operation.

3. Usage:

- Before firing, conduct a function check to ensure that the bolt carrier group operates smoothly.
- Fire the firearm in a controlled and safe environment, following all standard firearm safety practices.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding hazardous waste.
- Do not throw the product in regular trash; instead, contact local authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries related to safety or product issues, please refer to the manufacturer's website or contact their customer service department for assistance.

Thank you for prioritizing safety while using the Brownells AR15 SemiAuto Chrome Bolt Carrier Groups. Your adherence to these guidelines helps ensure a safe and enjoyable experience.
