## Puts Finish Polish On Shotgun Bores That Is Truly Outstanding

Hundreds of abrasive "balls" mounted on a flexible shaft - the fastest, easiest way we've come across to clean and polish older barrels or put a mirror polish in new ones. For used barrels, the Medium-Coarse hone, followed by the Fine, removes rough and tight spots and brings the bore to a bright finish that you can see and feel . . . just run a patch through it before and after; the difference is amazing! We found too, that we could feel tight spots during honing and spend extra time on them until they were evened out. On new barrels, the Fine hone by itself will bring the factory finish up to a beautiful, mirror-bright finish that's a real customer pleaser. Easy to use: chuck in a variable speed electric drill; wet the hone with Flex Hone® oil; start the drill and insert the hone into the barrel from the breech end (if possible). As it cuts, a slurry of abrasive and oil develops to help speed the cutting action. Flex Hone® available (shown below) in sets and individual hones for 10, 12, 16 and 20 gauge barrels as well as .410 bore. Also, special-sized hones for 10, 12, 16, 20 gauge chambers and .410 bore. Instructions walk you through the steps for a perfect job. (You MUST use Flex Hone® oil - all other oils will destroy the abrasive "balls" and void our guarantee!) 750 RPM MAX. Avoid excess pressure. # Safety Instruction Guide for SHOTGUN BARREL POLISHING FLEX HONE® 20 GAUGE FLEX HONE SET W/OIL

## Introduction

Thank you for choosing the SHOTGUN BARREL POLISHING FLEX HONE® 20 GAUGE FLEX HONE SET W/OIL. This product is designed to help you clean and polish shotgun barrels effectively. To ensure your safety and the proper use of this product, please read and follow the instructions and guidelines outlined in this document.

## General Safety Guidelines

- Ensure safe use of the Flex Hone by following all instructions carefully.
- Always use the product in accordance with the specifications provided.
- Be aware of potential hazards associated with the use of power tools and abrasive materials.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including safety goggles and gloves, when using the Flex Hone.
- Use the Flex Hone only with a variable speed electric drill.
- Do not exceed the maximum speed of 750 RPM.
- Avoid applying excessive pressure while honing to prevent damage to the barrel and the hone.
- Ensure the work area is clean and free of obstructions.
- Do not use the Flex Hone if it appears damaged or worn.
- Always use Flex Hone® oil as specified; other oils may damage the abrasive "balls" and void any guarantees.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools and materials, including a variable speed electric drill, Flex Hone® oil, and cleaning patches.
- Ensure the shotgun is unloaded and pointed in a safe direction.

### 2. Installation

- Insert the Flex Hone into the chuck of the electric drill securely.
- Make sure the drill is set to a variable speed and is functioning properly.

### 3. Usage

- Wet the hone with Flex Hone® oil before starting.
- Start the drill at a low speed to avoid splatter.
- Insert the hone into the barrel from the breech end (if possible).
- Gradually increase the speed of the drill while honing. A slurry of abrasive and oil will form to aid in the polishing process.
- Move the hone in and out of the barrel smoothly to ensure even polishing.

- After honing, run a cleaning patch through the barrel to remove any residue.

#### **4. PostUse**

- Clean the Flex Hone and store it in a safe place.
- Dispose of any used oil and cleaning materials according to local regulations.

## **Disposal Instructions**

- Dispose of the Flex Hone and any associated materials in accordance with local waste disposal regulations.
- Do not dispose of the product in general household waste if it contains hazardous materials.
- Check with local authorities for proper disposal methods for abrasive materials and oils.

## **Contact Information for Further Support**

For safety inquiries or further support regarding the SHOTGUN BARREL POLISHING FLEX HONE® 20 GAUGE FLEX HONE SET W/OIL, please refer to the manufacturer's contact details provided with the product packaging.

By following these safety instructions, you can ensure a safe and effective experience while using the SHOTGUN BARREL POLISHING FLEX HONE® 20 GAUGE FLEX HONE SET W/OIL. Thank you for prioritizing safety!
