

SHOTGUN BARREL POLISHING FLEX HONE® - 410 BORE FLEX HONE SET W/OIL

[Gunsmith Tools & Supplies](#) > [Shotgun Tools](#) > [Barrel Hones & Accessories](#)

Puts Finish Polish On Shotgun Bores That Is Truly Outstanding

Hundreds of abrasive "balls" mounted on a flexible shaft - the fastest, easiest way we've come across to clean and polish older barrels or put a mirror polish in new ones. For used barrels, the Medium-Coarse hone, followed by the Fine, removes rough and tight spots and brings the bore to a bright finish that you can see and feel . . . just run a patch through it before and after; the difference is amazing! We found too, that we could feel tight spots during honing and spend extra time on them until they were evened out. On new barrels, the Fine hone by itself will bring the factory finish up to a beautiful, mirror-bright finish that's a real customer pleaser. Easy to use: chuck in a variable speed electric drill; wet the hone with Flex Hone® oil; start the drill and insert the hone into the barrel from the breech end (if possible). As it cuts, a slurry of abrasive and oil develops to help speed the cutting action. Flex Hone® available (shown below) in sets and individual hones for 10, 12, 16 and 20 gauge barrels as well as .410 bore. Also, special-sized hones for 10, 12, 16, 20 gauge chambers and .410 bore. Instructions walk you through the steps for a perfect job. (You MUST use Flex Hone® oil - all other oils will destroy the abrasive "balls" and void our guarantee!) 750 RPM MAX. Avoid excess pressure. Safety Instruction Guide for SHOTGUN BARREL POLISHING FLEX HONE® 410 BORE FLEX HONE SET W/OIL

Introduction

Thank you for choosing the SHOTGUN BARREL POLISHING FLEX HONE® 410 BORE FLEX HONE SET W/OIL. This guide provides essential safety instructions and usage information to ensure the safe and effective operation of this product. Please read this guide carefully before using the product to minimize any risks associated with its use.

General Safety Guidelines

- Ensure that you read and understand all instructions before using the product.
- Always wear appropriate safety gear, including safety goggles and gloves, to protect yourself from debris and chemicals.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any damage or wear before each use. Do not use if damaged.
- Store the product in a cool, dry place away from direct sunlight and moisture.
- Report any unsafe products or accidents to the relevant authorities and check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use only Flex Hone® oil with the product. Other oils may damage the abrasive balls and void the warranty.
- Avoid excess pressure during operation to prevent damage to the product and ensure safety.
- Do not exceed the maximum speed of 750 RPM as indicated on the product.
- Ensure the area is wellventilated while using the product to avoid inhalation of dust or fumes.
- Be cautious of tight spots in the barrel; take extra time to hone these areas to avoid uneven surfaces.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary materials, including the Flex Hone® set, Flex Hone® oil, and a variable speed electric drill.
- Ensure the workspace is clean and free of any distractions.

2. Setup

- Chuck the Flex Hone® into the variable speed electric drill securely.
- Wet the hone with Flex Hone® oil before use to enhance cutting action.

3. Using the Flex Hone®

- Insert the hone into the barrel from the breech end, if possible.
- Start the drill at a low speed and gradually increase to the desired RPM, ensuring it does not exceed 750 RPM.
- Move the hone in and out of the barrel smoothly while maintaining a gentle pressure.
- Observe for tight spots and focus on these areas to achieve an even finish.

4. PostUse

- After honing, run a patch through the barrel to remove any debris and oil residue.
- Clean the Flex Hone® and store it properly for future use.

Disposal Instructions

- Dispose of any used Flex Hone® oil and debris in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for local recycling options or hazardous waste disposal facilities.

Contact Information for Further Support

For any inquiries or concerns regarding the product, please contact the designated EUbased support contact provided with your product packaging.

Thank you for prioritizing safety while using the SHOTGUN BARREL POLISHING FLEX HONE® 410 BORE FLEX HONE SET W/OIL. Your adherence to these guidelines will help ensure a safe and effective experience.
