## Puts Finish Polish On Shotgun Bores That Is Truly Outstanding

Hundreds of abrasive "balls" mounted on a flexible shaft - the fastest, easiest way we've come across to clean and polish older barrels or put a mirror polish in new ones. For used barrels, the Medium-Coarse hone, followed by the Fine, removes rough and tight spots and brings the bore to a bright finish that you can see and feel . . . just run a patch through it before and after; the difference is amazing! We found too, that we could feel tight spots during honing and spend extra time on them until they were evened out. On new barrels, the Fine hone by itself will bring the factory finish up to a beautiful, mirror-bright finish that's a real customer pleaser. Easy to use: chuck in a variable speed electric drill; wet the hone with Flex Hone® oil; start the drill and insert the hone into the barrel from the breech end (if possible). As it cuts, a slurry of abrasive and oil develops to help speed the cutting action. Flex Hone® available (shown below) in sets and individual hones for 10, 12, 16 and 20 gauge barrels as well as .410 bore. Also, special-sized hones for 10, 12, 16, 20 gauge chambers and .410 bore. Instructions walk you through the steps for a perfect job. (You MUST use Flex Hone® oil - all other oils will destroy the abrasive "balls" and void our guarantee!) 750 RPM MAX. Avoid excess pressure. # Safety Instruction Guide for SHOTGUN BARREL POLISHING FLEX HONE® 12 GAUGE MEDIUMCOURSE FLEX HONE

## Introduction

Thank you for choosing the SHOTGUN BARREL POLISHING FLEX HONE® 12 GAUGE MEDIUMCOURSE FLEX HONE. This product is designed to effectively clean and polish shotgun barrels. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always use the product according to the instructions provided.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product before use for any signs of damage or wear.
- Use appropriate personal protective equipment (PPE), such as safety goggles and gloves.
- Be aware of your surroundings and ensure a safe working environment.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform regularly.

## Specific Safety Precautions for Use

- Do not use the Flex Hone without Flex Hone® oil, as other oils may damage the abrasive "balls" and void the guarantee.
- Avoid using excessive pressure while honing; let the tool do the work.
- Do not exceed the maximum RPM of 750.
- Ensure that the drill is set to a variable speed to control the honing process.
- Always insert the hone from the breech end of the barrel if possible.
- Do not operate the drill or hone in wet conditions to avoid electrical hazards.
- Be cautious of tight spots during honing; spend extra time on them but avoid excessive pressure.
- Keep hands and body away from moving parts during operation.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary materials: Flex Hone® oil, electric drill, and cleaning patches.
- Ensure the work area is clean and free from obstructions.

### 2. Setup

- Chuck the Flex Hone into a variable speed electric drill.
- Wet the hone with Flex Hone® oil to prepare for use.

### 3. Honing Process

- Start the drill and carefully insert the hone into the barrel from the breech end.
- Allow the hone to rotate and create a slurry of abrasive and oil to assist in the cutting action.
- Move the hone in and out gently to ensure even polishing.

### 4. PostUse

- After honing, run a clean patch through the barrel to remove any residue.
- Inspect the finish and feel for smoothness and brightness.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste.
- Contact local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or further assistance, please refer to the contact information provided with your product packaging.

Thank you for prioritizing safety while using the SHOTGUN BARREL POLISHING FLEX HONE® 12 GAUGE MEDIUMCOURSE FLEX HONE. Your adherence to these guidelines helps ensure a safe and effective experience.
