

SHOTGUN BARREL POLISHING FLEX HONE® - 410 BORE MEDIUM-COURSE FLEX HONE, BORE

[Gunsmith Tools & Supplies](#) > [Shotgun Tools](#) > [Barrel Hones & Accessories](#)

Puts Finish Polish On Shotgun Bores That Is Truly Outstanding

Hundreds of abrasive "balls" mounted on a flexible shaft - the fastest, easiest way we've come across to clean and polish older barrels or put a mirror polish in new ones. For used barrels, the Medium-Coarse hone, followed by the Fine, removes rough and tight spots and brings the bore to a bright finish that you can see and feel . . . just run a patch through it before and after; the difference is amazing! We found too, that we could feel tight spots during honing and spend extra time on them until they were evened out. On new barrels, the Fine hone by itself will bring the factory finish up to a beautiful, mirror-bright finish that's a real customer pleaser. Easy to use: chuck in a variable speed electric drill; wet the hone with Flex Hone® oil; start the drill and insert the hone into the barrel from the breech end (if possible). As it cuts, a slurry of abrasive and oil develops to help speed the cutting action. Flex Hone® available (shown below) in sets and individual hones for 10, 12, 16 and 20 gauge barrels as well as .410 bore. Also, special-sized hones for 10, 12, 16, 20 gauge chambers and .410 bore. Instructions walk you through the steps for a perfect job. (You MUST use Flex Hone® oil - all other oils will destroy the abrasive "balls" and void our guarantee!) 750 RPM MAX. Avoid excess pressure. SHOTGUN BARREL POLISHING FLEX HONE® 410 BORE MEDIUMCOURSE FLEX HONE, BORE Safety Instruction Guide

Introduction

Thank you for choosing the SHOTGUN BARREL POLISHING FLEX HONE® 410 BORE MEDIUMCOURSE FLEX HONE. This product is designed to help you clean and polish shotgun barrels efficiently. To ensure your safety and the proper use of this product, please read and follow the guidelines outlined in this instruction guide.

General Safety Guidelines

- Always use the product as intended and follow the instructions provided.
- Ensure that the product is used in a wellventilated area to avoid inhalation of dust and particles.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check the product for any signs of damage or wear before use.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use only Flex Hone® oil with the product. Other oils can damage the abrasive "balls" and void the warranty.
- Avoid excessive pressure while using the hone to prevent damage to the barrel and the hone itself.
- Wear appropriate personal protective equipment, including gloves and safety goggles, to avoid contact with abrasive materials and oil.
- Ensure that the drill is set to a maximum speed of 750 RPM when using the hone.
- Do not use the product on barrels that are excessively damaged or compromised.

Instructions for Installation and Usage

1. Preparation

- Ensure that you have a variable speed electric drill and Flex Hone® oil ready for use.
- Clean the barrel to remove any loose debris before honing.

2. Using the Flex Hone®

- Chuck the hone into the variable speed electric drill securely.
- Wet the hone with Flex Hone® oil to facilitate cutting action.
- Insert the hone into the barrel from the breech end, if possible.
- Start the drill and allow the hone to cut through the surface of the barrel.
- As the hone operates, a slurry of abrasive and oil will form to enhance the cutting action.
- Move the hone back and forth gently to ensure even polishing and cleaning.
- Check for tight spots during the process and spend extra time on them as necessary.

3. PostUse Care

- After honing, run a clean patch through the barrel to remove any debris and slurry.
- Inspect the barrel to ensure the desired finish has been achieved.
- Clean the hone and store it in a safe place away from children.

Disposal Instructions

- Dispose of any used Flex Hone® oil and debris in accordance with local regulations.
- Do not dispose of the product in regular household waste. Follow local guidelines for hazardous waste disposal.

Contact Information for Further Support

For safety inquiries or further assistance, please refer to the manufacturer's contact information provided with your product packaging.

By following these safety instructions, you can ensure a safe and effective experience while using the SHOTGUN BARREL POLISHING FLEX HONE® 410 BORE MEDIUMCOURSE FLEX HONE. Thank you for your attention to safety!
