

# ACRAGLAS GEL® RESIN & HARDENER - ACRAGLAS GEL HARDENER & RESIN SET 2OZ

[Gunsmith Tools & Supplies](#) > [Stock Work & Finishing](#) > [Stock Bedding & Adhesives](#)

Replenish Acraglas Gel Kits with individual containers or the bundle of Resin & Hardener. Available in various sizes to suit your shop requirements. Nylon Derivatives are formulated into Acraglas Gel and provide greater "thin strength," shock resistance and stability over normal temperature extremes. Slightly less shrinkage than that of Acraglas, which has an amazing 1/10th of 1%. 1-to-1 mixing ratio gives a stable, molecular lattice structure to Acraglas Gel that will not crack, craze or sugar-out as will other 1-to-1 epoxies. Plus, this exclusive, 1-to-1 mix ratio, by volume, simplifies mixing and measuring small amounts accurately. Slightly longer pot life to give the user more time when doing the actual bedding. Longer cure time - The molecular structure of Acraglas Gel has been controlled so that for the first few hours after the epoxy sets it remains slightly flexible, making it easy to trim away excess compound. Readily blends with atomized aluminum, steel and stainless steel particles, thus making it possible for the user to create his own reinforced epoxy whenever such type epoxy is desired. Standard mix for optimum results is 1 part metal particles-to-3 parts mixed Acraglas Gel by volume. Can be dyed the same as Acraglas to match the characteristics of the gun stock being worked on. The above features of Acraglas Gel give you an idea of how completely we fulfilled your requests for a companion product for Acraglas ... The Acraglas Gel stay-in-one-spot feature ... sophisticated molecular structure ... slightly longer pot life and curing time ... the ability to mix in aluminum or steel, make this a product we are proud to offer to you.

## Attributes

- Name: [ACRAGLAS GEL HARDENER & RESIN SET 2OZ](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 081015004
- Mfr. No.:
- Model Number: -
- Size: 4 oz.
- Type: Acraglas Gel
- Quantity: 4
- Delivery weight: 0.141kg
- UPC: 050806111035

# Safety Instruction Guide for ACRAGLAS GEL® RESIN & HARDENER

## Introduction

Thank you for choosing ACRAGLAS GEL® RESIN & HARDENER. This guide provides essential safety information to ensure the safe and effective use of this product. Please read the following guidelines carefully before using the product.

## General Safety Guidelines

- Product Safety:** Ensure safe handling and use of ACRAGLAS GEL® RESIN & HARDENER, including proper storage and disposal.
- Enhanced Recalls:** Stay informed about any product recalls. Ensure you have access to recall notices and remedies for any dangerous products.
- Online Shopping:** If purchased online, ensure the platform meets safety requirements similar to physical stores.
- Special Consumer Focus:** Extra precautions should be taken when using this product around children and vulnerable groups.
- EU Contact Point:** For any safety inquiries, refer to the designated EU contact point for this product.
- Rapid Alerts:** Stay updated on unsafe products through the EU Safety Gate system.

## Specific Safety Precautions for Use

- Personal Protective Equipment (PPE):** Always wear appropriate PPE, including gloves and safety goggles, to protect against skin and eye contact.
- Ventilation:** Use the product in a wellventilated area to avoid inhaling fumes.
- Avoid Ingestion:** Do not eat or drink while using this product. Keep it out of reach of children.
- Skin Contact:** In case of skin contact, wash immediately with soap and water. Seek medical attention if irritation persists.
- Eye Contact:** If product comes into contact with eyes, rinse immediately with plenty of water and seek medical attention.
- Inhalation:** If inhaled, move to fresh air. Seek medical attention if symptoms persist.
- Fire Safety:** Keep away from open flames and heat sources. Use a fire extinguisher suitable for chemical fires if necessary.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the work area is clean and dry.
- Gather all necessary tools and materials.
- Read the entire product label and safety instructions before use.

### 2. Mixing:

- Use a clean, dry container for mixing.
- Follow the 1to1 mixing ratio for Resin and Hardener by volume.
- Mix thoroughly until a uniform consistency is achieved.

### 3. Application:

- Apply the mixed product to the desired area using appropriate tools.

- Ensure even distribution for optimal results.
- Avoid overapplication to prevent excessive curing time.

#### 4. Curing:

- Allow the product to cure as per the guidelines provided. Curing times may vary based on environmental conditions.
- Do not disturb the application during the curing process to ensure a strong bond.

#### 5. Cleanup:

- Clean tools and surfaces immediately after use with a suitable solvent.
- Dispose of any waste materials in accordance with local regulations.

## Disposal Instructions

- Dispose of any unused product and empty containers in accordance with local waste disposal regulations.
- Do not pour down drains or dispose of in the environment.
- Ensure that the product is fully cured before disposal to prevent contamination.

## Contact Information for Further Support

For further assistance or inquiries regarding the safety of ACRAGLAS GEL® RESIN & HARDENER, please refer to the designated EU contact point or the retailer from whom the product was purchased.

By following these safety guidelines and instructions, you can ensure the safe and effective use of ACRAGLAS GEL® RESIN & HARDENER. Thank you for your attention to safety.
