BLACK IRON DEEP TANK DEEP BLUING TANK

Safety Instructions

Introduction

Thank you for choosing the BLACK IRON DEEP TANK DEEP BLUING TANK. This product is designed for safe and effective use in various applications, including bluing with electric heating units and boiling water. This guide provides essential safety instructions to ensure your safety and the proper use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the tank is used in a wellventilated area to prevent the buildup of harmful fumes.
- Always follow the manufacturer's instructions for use and maintenance.
- Keep the tank out of reach of children and vulnerable individuals.
- Regularly inspect the tank for any signs of damage or wear.
- Use appropriate personal protective equipment (PPE), such as gloves and goggles, when handling hot liquids or chemicals.

Specific Safety Precautions for Use

- **Heat Sources:**
 - Ensure that the electric heating unit is compatible with the tank and properly installed.
 - Never leave the heating unit unattended while in use.
- **Handling Hot Liquids:**
 - Always use heatresistant gloves when handling the tank after heating.
 - Be cautious of splashes when adding or removing liquids from the tank.
- **Chemical Safety:**
 - Use only approved solutions for bluing or boiling water.
 - Follow the manufacturer's guidelines for mixing and using chemicals.
- **Weight Considerations:**
 - The tank holds 7¼ gallons of solution, which can be heavy. Use caution when moving the tank to avoid strain or injury.

Instructions for Installation and Usage

1. Installation:

- Place the tank on a stable, flat surface away from flammable materials.
- Ensure that the electric heating unit is securely connected to a power source and positioned according to the manufacturer's guidelines.

2. Usage:

- Fill the tank with the desired solution, ensuring not to exceed the maximum capacity.
- Turn on the electric heating unit and monitor the temperature closely.

- When finished, turn off the heating unit and allow the tank to cool before handling.

3. Cleaning and Maintenance:

- After each use, clean the tank with warm, soapy water and a soft cloth.
- Inspect the tank regularly for any signs of rust, corrosion, or damage.

Disposal Instructions

- Dispose of any unused solutions according to local regulations.
- If the tank is damaged beyond repair, check with local waste management for proper disposal methods.
- Do not dispose of the tank in regular household waste; follow your local guidelines for metal recycling.

Contact Information for Further Support

For any inquiries regarding safety or product concerns, please consult the manufacturer's contact information provided with your product packaging.

Thank you for your attention to these safety instructions. Your adherence to these guidelines will help ensure a safe and effective experience with the BLACK IRON DEEP TANK DEEP BLUING TANK.
