

# 1911 45 ACP SUPPRESSOR READY THREADED BARRELS - ED BROWN 1911 45 ACP 4.25" COMMANDER THREADED BARREL

[Handgun Parts](#) > [Barrel Parts](#) > [Barrels](#)

Identical to the standard drop-in Ed Brown barrel, but longer length and threaded for use with suppressors. Thread size is 0.578 x 28 tpi RH. Includes link, link pin, bushing and thread protector. Barrel accuracy comes from using the highest quality materials and manufacturing methods. Ed Brown Products is committed to both. The barrels are made from T-416 modified, gun barrel quality stainless steel bar stock, just like a benchrest rifle barrel. T-416 is certified pure, there are no foreign materials, and no hard or soft spots to worry about. It is stress-relieved and heat-treated prior to final rifling and refinishing. Ed Brown barrels are precision machine cut from a 3 pound chunk bar of this top quality steel. Ed Brown barrels are rifled by precision broach in the original six lands and grooves, one turn in sixteen, left hand twist as originally designed by John Browning. This deep cut, broached rifling gives superior accuracy with all types of bullets, including lead. Ed Brown barrels are heat-treated by an aerospace certified heat treat facility, and sub-zero frozen for maximum strength and stress relief. This means more accuracy and longer barrel life to the shooter. Ed Brown has also cut the dimensions to max tolerance on the outside of the barrel. This means less fitting work for you, and more accuracy. A suppressor equipped with a Nielsen device (such as 276-000-055) is REQUIRED for reliability in a 1911. This is also referred to as a booster, kicker, or Linear Inertial Decoupler.

## Attributes

- Name: [ED BROWN 1911 45 ACP 4.25" COMMANDER THREADED BARREL](#)
- Manufacturer: [ED BROWN](#)
- Product no.: 087000102

# Safety Instruction Guide for 1911 45 ACP Suppressor Ready Threaded Barrels

## Introduction

Thank you for choosing the Ed Brown 1911 45 ACP Suppressor Ready Threaded Barrel. This product is designed for enhanced performance and accuracy with suppressor compatibility. To ensure your safety and the proper functioning of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure safe handling and use of the barrel at all times.
- Store the barrel in a secure location, away from children and unauthorized users.
- Always treat the barrel as if it is loaded, even when you believe it is not.
- Regularly inspect the barrel for any signs of damage or wear.
- Follow all local laws and regulations regarding firearm accessories.

## Specific Safety Precautions for Use

- Use only with compatible 1911 models, specifically Government or Commander Slides.
- Ensure that a suppressor equipped with a Nielsen device is used for reliable operation.
- Do not attempt to modify the barrel or suppressor in any way.
- Always wear appropriate eye and ear protection when using firearms equipped with this barrel.
- Avoid using damaged or worn ammunition, as it may affect performance and safety.

## Instructions for Installation and Usage

### 1. Installation

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing barrel from the firearm according to the manufacturer's instructions.
- Install the Ed Brown threaded barrel by following these steps:
  - Insert the barrel into the slide, ensuring proper alignment.
  - Secure with the provided link, link pin, and bushing.
  - Attach the thread protector to the muzzle threads when not using a suppressor.

### 2. Usage

- Confirm that the suppressor is properly attached to the threaded barrel before firing.
- Fire the weapon in a safe and controlled environment.
- Regularly clean the barrel after use to maintain optimal performance.
- Monitor the barrel for any signs of overheating or wear during extended use.

## Disposal Instructions

- Dispose of the barrel in accordance with local regulations regarding firearm accessories.
- Do not discard in regular household waste. Contact a local firearms dealer or recycling center for proper disposal options.

## Contact Information for Further Support

For any inquiries regarding safety or performance, please refer to the manufacturer's contact information

provided with your product packaging.

Thank you for your attention to these safety guidelines. Proper care and usage will help ensure a safe and enjoyable experience with your Ed Brown 1911 45 ACP Suppressor Ready Threaded Barrel.
