

# 1911 45 ACP SUPPRESSOR READY THREADED BARRELS - ED BROWN 1911 45 ACP 5" GOVERNMENT THREADED BARREL

[Handgun Parts](#) > [Barrel Parts](#) > [Barrels](#)

Identical to the standard drop-in Ed Brown barrel, but longer length and threaded for use with suppressors. Thread size is 0.578 x 28 tpi RH. Includes link, link pin, bushing and thread protector. Barrel accuracy comes from using the highest quality materials and manufacturing methods. Ed Brown Products is committed to both. The barrels are made from T-416 modified, gun barrel quality stainless steel bar stock, just like a benchrest rifle barrel. T-416 is certified pure, there are no foreign materials, and no hard or soft spots to worry about. It is stress-relieved and heat-treated prior to final rifling and refinishing. Ed Brown barrels are precision machine cut from a 3 pound chunk bar of this top quality steel. Ed Brown barrels are rifled by precision broach in the original six lands and grooves, one turn in sixteen, left hand twist as originally designed by John Browning. This deep cut, broached rifling gives superior accuracy with all types of bullets, including lead. Ed Brown barrels are heat-treated by an aerospace certified heat treat facility, and sub-zero frozen for maximum strength and stress relief. This means more accuracy and longer barrel life to the shooter. Ed Brown has also cut the dimensions to max tolerance on the outside of the barrel. This means less fitting work for you, and more accuracy. A suppressor equipped with a Nielsen device (such as 276-000-055) is REQUIRED for reliability in a 1911. This is also referred to as a booster, kicker, or Linear Inertial Decoupler.

## Attributes

- Name: [ED BROWN 1911 45 ACP 5" GOVERNMENT THREADED BARREL](#)
- Manufacturer: [ED BROWN](#)
- Product no.: 087000103
- Mfr. No.: 925-45-SR
- Barrel Length: 5"
- Barrel Weight: .26 lbs
- Cartridge: 45 Auto (ACP)
- Finish: Stainless Steel
- Model: Government
- Style: Drop-In, Threaded
- Weapon type: 1911
- Delivery weight: 0.125kg
- Shipping height: 51mm
- Shipping width: 76mm
- Shipping length: 152mm
- UPC: 800732925066

## Item details

Made in USA

US export classification: 0A501.c

# Safety Instruction Guide for Ed Brown 1911 45 ACP Suppressor Ready Threaded Barrels

## Introduction

Thank you for choosing the Ed Brown 1911 45 ACP Suppressor Ready Threaded Barrel. This guide provides essential safety information and instructions to ensure the proper use and maintenance of your product. Please read this guide carefully before use to ensure a safe and enjoyable experience.

## General Safety Guidelines

- **Product Safety:** This product is designed for safe use as per the EU General Product Safety Regulation (GPSR). Ensure that you follow all safety instructions.
- **Enhanced Recalls:** In the unlikely event of a product recall, stay informed through official channels for updates and remedies.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety regulations, similar to physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Ensure it is stored safely out of reach.
- **EU Contact Point:** For any safety inquiries, please refer to the manufacturer's contact point in the EU.
- **Rapid Alerts:** Stay updated on product safety through the EU Safety Gate platform. Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- **Use Appropriate Equipment:** Always use a suppressor equipped with a Nielsen device for reliable operation.
- **Avoid Modifications:** Do not alter the barrel or suppressor in any way that may affect its performance or safety.
- **Regular Inspection:** Frequently inspect the barrel for any signs of wear, damage, or corrosion. Do not use if damaged.
- **Proper Handling:** Always handle the firearm safely, following standard gun safety practices.
- **Age Restrictions:** This product is intended for use by individuals aged 18 and older. Ensure compliance with local laws regarding firearm ownership and use.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is unloaded before beginning installation.
- Remove the existing barrel from the firearm according to the manufacturer's instructions.
- Insert the Ed Brown threaded barrel into the slide, ensuring it is properly aligned.
- Secure the barrel using the provided link, link pin, and bushing.
- Attach the thread protector to the muzzle threads when not using a suppressor.

### 2. Usage:

- Always ensure the suppressor is properly attached to the threaded barrel before shooting.
- Verify that the suppressor is equipped with a Nielsen device for reliable cycling.
- Follow all local laws and regulations regarding the use of suppressors.

### 3. Maintenance:

- Clean the barrel regularly using appropriate cleaning materials for stainless steel.
- Inspect the threads for debris or damage after each use.
- Store the barrel in a dry place to prevent corrosion.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations regarding firearm parts and materials.
- Do not dispose of the product in regular household waste. Check for designated disposal facilities for firearms and related components.

## **Contact Information for Further Support**

For any questions or concerns regarding the Ed Brown 1911 45 ACP Suppressor Ready Threaded Barrel, please refer to the manufacturer's website or contact their support team for assistance.

Thank you for prioritizing safety while using your Ed Brown product. Enjoy your shooting experience responsibly!
