GEN 3 Ergonomics & Reliability For Your AK Plus Internal Reinforcing For Maximum Durability

The Magpul PMAG AK/AKM GEN M3 brings Kalashnikov PMAG technology up to the same state-of-the-art as GEN M3 mags for AR-pattern rifles. This rugged yet lightweight, high-reliability mag is designed specifically for AK-pattern rifles, including the AKM, AKS, SIG556R, and similar variants. The mag body has a steel-reinforced spine and front/rear lugs for superb durability under hard use, plus Magpul's constant-curve internal geometry for smooth movement of the round stack. Handy paint pen dot matrix panels on the lower portion of the body make it easy to ID each of your mags. The flared floorplate is easy to grab, yet is slim enough for use with standard AK mag pouches, and of course it's easy to remove for cleaning. The low-friction, anti-tilt polymer follower delivers reliable performance and the durability you expect from any magazine with the "PMAG" name. Counts as 3 U.S.-sourced parts for compliance with 18 U.S.C. Sec. 922(r).
