"Custom" Performance from a Drop-In Barrel

The "Flame" Match Barrels for Glock® 17 from Faxon Firearms have innovative, variable-depth fluted "flames" that help dissipate heat to keep the barrel cool and give extra rigidity. The result is barrels with a strong resistance to accuracy drift due to heat warpage - a real plus in a hard-running action competition pistol. Besides, it also looks cool! Faxon's Flame Match Barrels for Glock® 17 are painstakingly machined from triple stress-relieved 416R stainless steel, before application of a hard, black Nitride finish for superb resistance to surface wear. Muzzles have a meticulously cut 11° target crown to ensure the bullet departs on a true trajectory. Compatible with Gen 1-4 G17 pistols 9mm SAAMI-spec chamber AND 1-10" twist conventional rifling handles any type of projectile - jacketed, heavy subsonics, even cast-lead practice bullets Available with a plain, unthreaded muzzle OR with ½"-28 tpi threads for compensator or sound suppressor installation Hard Nitride finish is non-reflective and helps prevent surface wear As if that's not enough, the Faxon Flame Match Barrel for Glock® 17 drops into a factory-spec slide with no gunsmith fitting needed. Better-than-factory tolerances ensure a consistent, secure lockup, too, further enhancing your prospects for tight groups.

Safety Instructions for FULLSIZE MATCH FLAME BARRELS FOR GLOCK® 17

Introduction

Thank you for choosing the Faxon Firearms Match Barrel for Glock® 17. This product is designed for competitive shooting and offers enhanced performance and durability. Please read this safety instruction guide carefully to ensure safe and effective use of the barrel.

General Safety Guidelines

- Always handle firearms and their components with care and attention.
- Ensure that the barrel is compatible with your Glock® 17 model (Gen 14).
- Only use ammunition that meets SAAMI specifications for 9mm Luger.
- Keep this product out of reach of children and unauthorized users.
- Regularly inspect the barrel for signs of wear or damage.
- Follow all local laws and regulations regarding firearms and accessories.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure the firearm is unloaded before installing or removing the barrel.
- Use appropriate eye and ear protection when shooting.
- Do not modify the barrel or firearm in any way that could compromise safety.
- Avoid using excessive force during installation to prevent damage.
- Be aware of the potential for heat buildup during extended shooting sessions.
- Always check for proper fit and secure lockup after installation.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded.
- Remove the factory barrel from your Glock® 17 following the manufacturer's instructions.
- Insert the Faxon Match Barrel into the slide, ensuring it is seated properly.
- Reassemble the firearm according to the manufacturer's specifications.
- Verify that the barrel is securely locked in place before use.

2. Usage:

- Load the firearm with 9mm Luger ammunition that meets SAAMI specifications.
- Always aim in a safe direction and be aware of your surroundings.
- Fire the firearm while maintaining a firm grip and proper stance.
- After shooting, allow the barrel to cool before handling.

Disposal Instructions

- Dispose of the barrel in accordance with local regulations for metal waste.
- Do not dispose of the barrel in regular household waste.
- Contact local recycling facilities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or support regarding the Faxon Firearms Match Barrel for Glock® 17, please contact the manufacturer or your local dealer. Always ensure you have the appropriate documentation and information regarding your purchase.

By following these safety instructions, you can help ensure a safe and enjoyable experience with your new Faxon Firearms Match Barrel for Glock® 17. Thank you for your attention to safety.
