

S9 HANDGUN, SUBGUN & RIFLE CLEANING SYSTEM - INFANTE ULTRASONICS S9 HANDGUN, SUBGUN & RIFLE CLEANING SYSTEM

[Gun Cleaning & Chemicals](#) > [Professional Cleaning Systems](#) > [Ultrasonic Cleaning Kits](#)

Tabletop Gun Cleaning System for Pistols, Sub Guns, and Rifles

The Infante Ultrasonic S9 is the most powerful tabletop system in the ultrasonic gun cleaning market for its size. The kit is designed to clean and lubricate pistols, sub guns and rifle parts up to 19" in length simultaneously. For parts longer than 19", you can clean diagonally then turn the part around to do overlapping halves. The system utilizes half of the tank size accessories so that you can clean in the front basket and leave the rear open for the lubrication setup. This is the most economical choice for cleaning longer gun parts without spending more money on a dedicated long gun cleaner. The S9 has a faster process with higher output for multiple gun cleaning than the S6 and has more length to accommodate the longer gun parts. 1 gallon of Sonic Tonic™ cleaning concentrate (Makes 22 gallons!) 2 gallons of Sonic Lube™ 2 Wire mesh suspension baskets with drain position handles 1 Lube pan 2 Tank lid covers (1 for tank , 1 for lube pan) The Infante Ultrasonic S9 features: High-grade stainless steel skirt with sound insulation, stainless tank, lube pan and covers. New and improved suspension baskets that allow liquids to conveniently drain back into the tank while examining parts. Extra heat added for faster startup time and no cold spots. Infante ultrasonic gun cleaning units have greater power and heat than any other competitor on the market and are backed by the Infante performance guarantee.

Attributes

- Name: [INFANTE ULTRASONICS S9 HANDGUN, SUBGUN & RIFLE CLEANING SYSTEM](#)

S9 Handgun, Subgun & Rifle Cleaning System Safety Instructions

Introduction

Thank you for choosing the Infante Ultrasonic S9 Handgun, Subgun & Rifle Cleaning System. This safety instruction guide is designed to ensure the safe and effective use of your cleaning system. Please read this guide carefully before using the product.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the S9 cleaning system by following these guidelines.
- **Enhanced Recalls:** Stay informed about recalls and safety notices regarding this product.
- **Online Shopping:** If purchased online, ensure the seller meets safety requirements.
- **Special Consumer Focus:** This product is not intended for use by children. Keep out of reach of children.
- **EU Contact Point:** For any safety inquiries, please reach out to the designated EU contact point provided by the manufacturer.
- **Rapid Alerts:** Monitor the EU's Safety Gate platform for updates on product safety.

Specific Safety Precautions for Use

- **Electrical Safety:**
 - Ensure that the power supply matches the specifications of the S9 cleaning system.
 - Avoid using the system with wet hands or in damp environments to prevent electrical shock.
- **Chemical Safety:**
 - Use only the recommended cleaning and lubrication solutions (Sonic Tonic™ and Sonic Lube™) with the system.
 - Avoid skin contact with cleaning agents. Wear gloves if necessary.
 - In case of contact with eyes or skin, rinse immediately with plenty of water and seek medical attention if necessary.
- **Operational Safety:**
 - Do not operate the cleaning system without water in the tank.
 - Ensure that the parts being cleaned do not exceed the maximum length of 19 inches unless cleaned diagonally.
 - Keep the cleaning area wellventilated when using the system.
- **Handling Safety:**
 - Use caution when handling hot items or liquids to prevent burns.
 - Allow the system to cool down before cleaning or storing it.
- **Maintenance Safety:**
 - Regularly check the cleaning system for any signs of wear or damage. Do not use if damaged.
 - Follow the manufacturer's guidelines for cleaning and maintaining the ultrasonic tank and components.

Instructions for Installation and Usage

1. Installation:

- Place the S9 cleaning system on a stable, flat surface away from direct sunlight and moisture.
- Ensure the power supply is accessible and meets the product specifications.

2. Setup:

- Fill the tank with water up to the maximum fill line.
- Add the appropriate amount of Sonic Tonic™ cleaning concentrate to the water (1 gallon of concentrate makes 22 gallons).
- Place the wire mesh suspension baskets into the tank.

3. Usage:

- Turn on the cleaning system using the power switch.
- Select the desired cleaning time and temperature settings according to the manufacturer's recommendations.
- Place the parts in the front basket for cleaning. If parts exceed 19 inches, clean diagonally and turn to overlap.
- Once the cleaning cycle is complete, carefully remove the parts using the handles on the baskets.
- Rinse the parts with clean water to remove any remaining cleaning solution.
- Allow the cleaned parts to dry or proceed with lubrication using Sonic Lube™ as needed.

4. PostUsage:

- Turn off the cleaning system and unplug it from the power source.
- Clean the tank and baskets according to the maintenance guidelines provided by the manufacturer.

Disposal Instructions

- Dispose of the S9 cleaning system in accordance with local regulations regarding electronic waste.
- Empty and dispose of any cleaning solutions in compliance with local environmental guidelines.
- Recycle packaging materials whenever possible.

Contact Information for Further Support

For further assistance, please refer to the manufacturer's contact information provided with your product. Ensure you have your product details ready when seeking support.

Thank you for using the Infante Ultrasonic S9 Handgun, Subgun & Rifle Cleaning System. Your safety and satisfaction are our priorities.
