Safety Instruction Guide for RCBS Taper Crimp Seater Die

Introduction

Thank you for choosing the RCBS Taper Crimp Seater Die. This product is designed to securely seat bullets while providing a built-in taper crimp feature. Please read this safety instruction guide carefully to ensure safe and effective use of the die. Adhering to these guidelines will help you avoid potential hazards and ensure compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the die is used only for its intended purpose, which is to seat and crimp bullets for the 350 Legend cartridge.
- Always wear appropriate personal protective equipment, including safety glasses and gloves, when handling reloading equipment.
- Keep the die and reloading workspace clean and free from obstructions to prevent accidents.
- Store the die in a cool, dry place, away from direct sunlight and moisture.
- Regularly inspect the die for wear or damage. Do not use a damaged die.
- Follow all local laws and regulations related to ammunition reloading and usage.

Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for the 350 Legend cartridge. Always refer to reliable reloading manuals.
- Ensure that the press used with the die is stable and securely mounted to prevent tipping during operation.
- Avoid distractions while reloading. Focus on the task at hand to prevent mistakes.
- Use only compatible components (bullets, cases, powders) as specified by the die manufacturer.
- Be aware of the risk of double charging or undercharging cartridges. Always check powder levels before seating bullets.
- Never attempt to modify the die or use it in any manner not specified by the manufacturer.

Instructions for Installation and Usage

1. Installation:

- Securely mount the reloading press to a stable work surface.
- Insert the RCBS Taper Crimp Seater Die into the press according to the manufacturer's instructions.
- Adjust the die to the desired seating depth, ensuring it is tightly secured.

2. Usage:

- Prepare your brass cases by cleaning and inspecting them for defects.
- Charge the cases with the appropriate powder charge as per your reloading manual.
- Place a bullet on top of the charged case.
- Activate the press to seat the bullet into the case, ensuring the die's taper crimp feature is engaged.
- Inspect each completed cartridge for proper seating and crimping before proceeding with further reloading steps.

Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Do not throw the die in regular waste. Check with local authorities for proper disposal methods for metal and hazardous materials.

Contact Information for Further Support

For any safety inquiries or support regarding the RCBS Taper Crimp Seater Die, please refer to the manufacturer's contact information provided with the product packaging or visit the official website.

By following these safety instructions, you can ensure a safe and efficient reloading experience with the RCBS Taper Crimp Seater Die. Always prioritize safety and compliance with local regulations while reloading ammunition.
