ONEGUN KEYPAD VAULT Safety Instruction Guide

Introduction

Thank you for choosing the ONEGUN KEYPAD VAULT. This guide provides essential safety instructions and guidelines to ensure the secure and effective use of your vault. Please read this manual carefully before installation and usage to maximize safety and performance.

General Safety Guidelines

- Ensure that the vault is used only for its intended purpose of storing firearms and valuables.
- Keep the vault out of reach of children and unauthorized users.
- Regularly check the keypad and locking mechanism for proper functionality.
- Do not attempt to open the vault using force or unauthorized methods.
- Always ensure the vault is properly secured after each use.
- In case of malfunction or damage, refrain from using the vault and contact authorized personnel for assistance.

Specific Safety Precautions for Use

- **Keypad Security**: Use a strong, unique 4 to 6 digit code that is not easily guessed. Change the code periodically for enhanced security.
- **Access Control**: Limit access to the vault to trusted individuals only. Do not share your code with unauthorized persons.
- **Environmental Considerations**: Keep the vault in a dry area to prevent moisture damage. Avoid exposure to extreme temperatures.
- **Battery Maintenance**: Regularly check the battery status. Replace the batteries as needed to ensure the locking mechanism functions correctly.
- **Emergency Access**: Familiarize yourself with the backup key lock override in case the keypad fails.

Instructions for Installation and Usage

Installation

1. **Select a Location**: Choose a secure and discreet location for your vault. Ensure it is easily accessible for you but out of reach for children.
2. **Predrill Mounting Holes**: Use the predrilled holes on the vault to mark the installation points on the wall or surface.
3. **Mount the Vault**: Secure the vault using appropriate screws and anchors (not included) to ensure it is firmly attached.
4. **Test the Installation**: After mounting, ensure that the vault is stable and does not wobble.

Usage

1. **Setting the Keypad Code**:

   - Follow the manufacturer's instructions to program your unique 4 to 6 digit code.
   - Test the code multiple times to ensure it is functioning correctly.

2. **Opening the Vault**:

   - Enter your programmed code on the keypad.
   - Wait for the springloaded door to open.

3. **Storing Items**:

   - Place valuables inside the vault carefully to avoid scratches or damage.
   - Use the protective foam liner to safeguard your items.

4. **Closing the Vault**:

   - Ensure the door is fully closed and locked after each use.
   - Test the locking mechanism by attempting to open the vault with the keypad.
