Safety Instruction Guide for POWDER THRU HANDGUN DIES LEE PRECISION 40 S&W POWDER THRU DIE

Introduction

Thank you for choosing the Lee Powder Thru Handgun Die for your reloading needs. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before using the die.

General Safety Guidelines

- Always follow the manufacturer's instructions and guidelines when using the die.
- Ensure that you are familiar with the reloading process and have received proper training if necessary.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when reloading.
- Regularly inspect the die and related equipment for wear or damage before each use.
- In case of an emergency or unsafe situation, stop using the die immediately and seek assistance.

Specific Safety Precautions for Use

- **Hazardous Materials:** Be aware that the materials used in reloading, such as gunpowder, can be hazardous. Store them in a cool, dry place away from direct sunlight and heat sources.
- **Proper Ventilation:** Ensure that your reloading area is wellventilated to avoid inhaling fumes from gunpowder or other materials.
- **Avoid Mixing Powders:** Never mix different types or brands of gunpowder. This can lead to dangerous situations.
- **Check for Obstructions:** Before using the die, check for any obstructions or debris in the die or reloading equipment that may cause malfunctions.
- **Use Correct Components:** Always use components that are compatible with the 40 S&W cartridge to avoid accidents or malfunctions.
- **Supervision:** If you are inexperienced, have a knowledgeable person supervise your reloading activities.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is securely mounted.
- Insert the Lee Powder Thru Die into the press according to the manufacturer's instructions.
- Attach the powder funnel adapter or the Auto Disk/Pro Auto Disk Powder Measure as needed.

2. Setting Up:

- Adjust the die to the desired position for expanding the case mouth.
- Use the appropriate powder measure for accurate powder charges.

3. Reloading Process:

- Start with clean, dry brass cases.
- Insert the case into the shell holder and raise the ram to engage the die.
- The die will expand the case mouth and charge the case with powder simultaneously.

- Always doublecheck the powder charge before seating bullets.

4. PostUse:

- After reloading, clean the die and equipment to remove any residual powder or debris.
- Store the die and all reloading components in a secure location.

Disposal Instructions

- Dispose of any unused or expired gunpowder and reloading components according to local regulations.
- Do not throw hazardous materials in regular trash. Contact your local waste management authorities for proper disposal methods.
- Ensure that all packaging materials are recycled or disposed of in compliance with local laws.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Lee Powder Thru Handgun Die, please consult the manufacturer or your local distributor. Always ensure you have the latest safety information and product updates.

By following these guidelines, you can ensure a safe and efficient reloading experience with the Lee Powder Thru Handgun Die. Always prioritize safety and stay informed about best practices in reloading.
