

2 CAVITY RIFLE BULLET MOLDS - LEE PRECISION 30 CALIBER (0.309") 170GR FLAT NOSE DOUBLE CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Rifle Moulds](#)

All Lee mould blocks are made from aluminum because of its exceptional moulding qualities. All mould cavities are CNC machined for unmatched roundness and size control. All hollow base moulds are single cavity only as they have a self centering, automatic core pin for the fastest possible moulding. All moulds include handles and sprue plates.

Attributes

- Name: [LEE PRECISION 30 CALIBER \(0.309"\) 170GR FLAT NOSE DOUBLE CAVITY MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100053298
- Mfr. No.: 90368
- Bullet Weight (Grains): 170
- Caliber: 30 Caliber
- Cavities: -
- Diameter (in): 0.309
- Delivery weight: 0.34kg
- Shipping height: 52mm
- Shipping width: 64mm
- Shipping length: 272mm
- UPC: 734307903688

Safety Instruction Guide for 2 Cavity Rifle Bullet Molds

Introduction

Thank you for choosing the 2 Cavity Rifle Bullet Molds by Lee Precision. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this manual carefully before use to minimize risks and enhance your experience.

General Safety Guidelines

- Ensure that all users of this product are familiar with safe handling practices for firearms and ammunition.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using the mold.
- Keep the mold and all associated tools out of reach of children and unauthorized individuals.
- Inspect the mold for any damage or defects before use. Do not use if any part is damaged.
- Store the mold in a dry, secure place to prevent unauthorized access and damage.

Specific Safety Precautions for Use

- **Heat Safety:** The mold will become very hot during use. Always use heatresistant gloves when handling the mold.
- **Lead Exposure:** When casting bullets, be aware of the risks associated with lead exposure. Work in a wellventilated area and avoid inhaling fumes.
- **Burns:** Be cautious of hot metal and molten lead. Avoid direct contact to prevent burns.
- **Sharp Edges:** The mold may have sharp edges. Handle with care to avoid cuts or injuries.
- **Proper Ventilation:** Ensure that your workspace is wellventilated to reduce the risk of inhaling harmful fumes.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your workspace is clean and organized.
- Gather all necessary tools and materials, including a heat source, lead, and PPE.

2. Setting Up:

- Place the mold securely on a stable surface.
- Ensure that the mold is clean and free of any debris.

3. Heating the Mold:

- Heat the mold gradually using a suitable heat source. Do not overheat.
- Check the temperature periodically to ensure it is within a safe range.

4. Casting Bullets:

- Once the mold is heated, carefully pour molten lead into the cavities.
- Allow the lead to cool and solidify before removing the bullets.

5. Removing Bullets:

- Use caution when opening the mold. The bullets may be hot.
- Gently tap the mold to release the bullets without damaging them.

6. Cleaning:

- After use, allow the mold to cool completely before cleaning.
- Clean the mold with a suitable brush and avoid using abrasive materials.

Disposal Instructions

- Dispose of any lead waste in accordance with local regulations regarding hazardous materials.
- Do not dispose of used molds or any associated materials in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of the 2 Cavity Rifle Bullet Molds, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions and guidelines, you can ensure a safe and enjoyable experience while using the 2 Cavity Rifle Bullet Molds. Always prioritize safety and adhere to local regulations regarding the use of firearms and ammunition.
