

2 CAVITY RIFLE BULLET MOLDS - LEE PRECISION 30 CALIBER (0.309") 200GR ROUND NOSE DOUBLE CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Rifle Moulds](#)

All Lee mould blocks are made from aluminum because of its exceptional moulding qualities. All mould cavities are CNC machined for unmatched roundness and size control. All hollow base moulds are single cavity only as they have a self centering, automatic core pin for the fastest possible moulding. All moulds include handles and sprue plates.

Safety Instruction Guide for 2 Cavity Rifle Bullet Molds

Introduction

Thank you for choosing the 2 Cavity Rifle Bullet Molds by Lee Precision. This guide provides essential safety instructions and information to ensure safe usage of the product. Please read this guide carefully before using the bullet molds.

General Safety Guidelines

- Ensure safe use of the bullet molds by following these guidelines:
 - Always read and understand the product instructions before use.
 - Store the bullet molds in a dry and secure location, away from children and pets.
 - Inspect the molds for any damage before each use. Do not use if damaged.
 - Always wear appropriate safety gear, including eye protection, when using the molds.
 - Be aware of your surroundings and ensure that the work area is free from distractions.
 - Follow all local laws and regulations regarding the use and manufacture of ammunition.

Specific Safety Precautions for Use

- To avoid potential hazards, please observe the following precautions:
 - Use the bullet molds only with compatible materials as specified in the product instructions.
 - Do not exceed the recommended temperature limits when melting lead or other materials.
 - Avoid inhaling fumes generated during the melting process. Use in a wellventilated area.
 - Keep hands and other body parts away from hot surfaces and molten materials.
 - Do not leave the molds unattended while in use.
 - Ensure that the molds are securely clamped or held in place during operation.

Instructions for Installation and Usage

- Follow these steps for proper installation and usage of the bullet molds:

1. Preparation:

- Clean the molds thoroughly before the first use.
- Ensure all components, including handles and sprue plates, are securely attached.

2. Setting Up:

- Place the molds on a stable, heatresistant surface.
- Ensure that the molds are level and securely positioned to prevent spills.

3. Melting Materials:

- Heat the lead or other materials in a suitable melting pot.
- Monitor the temperature closely to avoid overheating.

4. Filling the Molds:

- Carefully pour the molten material into the molds, avoiding overfilling.
- Allow sufficient time for the material to cool and solidify before removing from the molds.

5. **Cleaning After Use:**

- Allow the molds to cool completely before cleaning.
- Clean the molds with a soft brush or cloth to remove any residue.

Disposal Instructions

- Dispose of any waste materials in accordance with local regulations. Do not dispose of molten lead or other materials in regular waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

- For safety inquiries or additional support, please refer to the contact information provided by the manufacturer on the product packaging or their official website.

By following these safety instructions, you can ensure a safe and effective experience with your Lee Precision 2 Cavity Rifle Bullet Molds. Always prioritize safety and compliance with local regulations. Thank you for your attention to these important guidelines.
