## Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER NO-GO HEADSPACE GAUGES The Clymer No-Go Headspace Gauges are precision tools designed to help gunsmiths and firearm enthusiasts verify that a firearm's chamber does not exceed the maximum safe headspace dimensions. By identifying excessive chamber length, these gauges prevent potential safety hazards such as case ruptures or misfires, ensuring the firearm operates within the specified tolerances. They are essential during the chambering of new barrels, routine maintenance, or when assessing used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer No-Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer No-Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

## Attributes

- Name: [CLYMER NO GO 5.56X45MM NATO HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184000036
- Mfr. No.: NG5.56NATO
- Cartridge: 5.56 mm NATO
- Colour: Steel
- Height: 0.355"
- Length: 1.623"
- Material: Steel
- Model Number: NO GO 5.56x45mm NATO
- Style: No Go Gauge
- Weight: 0.1 lbs
- Width: 0.355"
- Delivery weight: 0.005kg
- Shipping height: 18mm
- Shipping width: 18mm
- Shipping length: 58mm

## 5.56X45MM NATO HEADSPACE GAUGE STEEL

### Introduction

Thank you for choosing the Clymer NoGo 5.56x45mm NATO Headspace Gauge. This product is essential for accurately measuring and testing the length of your rifle's chamber. It ensures a tight, accurate, and safe chamber when chambering a new barrel. Always check the headspace before firing any used gun to ensure safety and performance.

### General Safety Guidelines

- Ensure that the gauge is used in accordance with the manufacturer's instructions.
- Always handle firearms and related equipment with care and respect.
- Keep the gauge out of reach of children and unauthorized users.
- Regularly inspect the gauge for signs of wear or damage before use.
- If the gauge shows signs of wear or damage, discontinue use immediately and replace it.

### Specific Safety Precautions for Use

- **Proper Measurement:** Use the gauge only for its intended purpose, which is to measure headspace in firearms.
- **Safe Environment:** Always perform measurements in a safe and controlled environment, away from distractions.
- **Personal Protective Equipment:** Wear appropriate safety gear, such as safety glasses, when using the gauge to protect against accidental injury.
- **Firearm Safety:** Always ensure the firearm is unloaded and pointed in a safe direction when using the gauge.
- **Follow Firearm Manufacturer Guidelines:** Refer to your firearm's manual for specific recommendations regarding headspace and gauge usage.

### Instructions for Installation and Usage

#### 1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and equipment for the measurement process.

#### 2. Using the Gauge:

- Insert the NoGo gauge into the chamber of the firearm.
- Attempt to close the bolt on the gauge. If the bolt does not close, the headspace is acceptable.
- If the bolt closes on the NoGo gauge, the headspace is excessive, and further action should be taken to address the issue.

#### 3. Post Use Care:

- After using the gauge, clean it with a soft cloth to remove any debris or residue.
- Store the gauge in a safe, dry place to prevent damage.

## **Disposal Instructions**

- Dispose of the gauge in accordance with local regulations.
- If the gauge is damaged or no longer usable, consider recycling the materials if possible.
- Do not throw the gauge in general waste if it contains any hazardous materials.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the Clymer NoGo 5.56x45mm NATO Headspace Gauge, please refer to the product packaging or visit the manufacturer's website for more information.

## **Conclusion**

By following these safety instructions, you can ensure the proper and safe use of your Clymer NoGo Headspace Gauge. Always prioritize safety and adhere to the guidelines provided to maintain optimal performance and safety in your firearm activities. Thank you for your attention to these important safety measures.
