

NO-GO HEADSPACE GAUGES - CLYMER NO GO 22 LONG RIFLE HEADSPACE GAUGE STEEL

[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER NO-GO HEADSPACE GAUGES The Clymer No-Go Headspace Gauges are precision tools designed to help gunsmiths and firearm enthusiasts verify that a firearm's chamber does not exceed the maximum safe headspace dimensions. By identifying excessive chamber length, these gauges prevent potential safety hazards such as case ruptures or misfires, ensuring the firearm operates within the specified tolerances. They are essential during the chambering of new barrels, routine maintenance, or when assessing used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer No-Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer No-Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Headspace Gauges NoGo Clymer No Go 22 Long Rifle Headspace Gauge Safety Instructions

Introduction

Thank you for purchasing the Clymer NoGo 22 Long Rifle Headspace Gauge. This product is designed to help you accurately measure and test the length of your rifle's chamber. Proper use of this gauge is essential for ensuring a safe and effective shooting experience. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always ensure that the firearm is unloaded before using the headspace gauge.
- Keep the gauge and all firearm-related tools out of reach of children and unauthorized users.
- Inspect the gauge for any signs of damage or wear before use. Do not use if damaged.
- Follow all local laws and regulations regarding firearm maintenance and safety.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Use the gauge only for its intended purpose: measuring headspace in firearms.
- Always wear appropriate safety gear, such as safety glasses, when handling firearms and gauges.
- Do not attempt to modify the gauge in any way. Modifications can lead to inaccurate measurements and unsafe conditions.
- When checking headspace, ensure that the firearm is pointed in a safe direction at all times.
- If you are unsure about how to use the gauge, seek assistance from a qualified gunsmith or firearms expert.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded. Remove all ammunition from the area.
- Gather necessary tools, including the headspace gauge and any additional tools required for your specific firearm.

2. Using the Gauge:

- Insert the NoGo gauge into the chamber of the rifle.
- Close the bolt gently. The bolt should not close fully if the headspace is correct.
- If the bolt closes completely, this indicates that the chamber may be too long, and you should consult a qualified gunsmith.
- If the bolt does not close, the headspace is within safe limits.

3. After Use:

- Remove the gauge from the chamber and clean it according to the manufacturer's recommendations.
- Store the gauge in a safe, dry place, away from children and unauthorized users.

Disposal Instructions

- Dispose of any damaged or worn gauges in accordance with local regulations. Do not throw them in regular trash.
- If you are unsure how to dispose of the product, contact your local waste management facility for guidance.

Contact Information for Further Support

For any questions or concerns regarding the Clymer NoGo 22 Long Rifle Headspace Gauge, please reach out to your local firearms expert or a qualified gunsmith. Ensure that you have the product details ready for reference when seeking assistance.

Thank you for prioritizing safety while using the Clymer NoGo 22 Long Rifle Headspace Gauge. Your adherence to these guidelines will contribute to a safer shooting experience.
