

NO-GO HEADSPACE GAUGES - CLYMER NO GO 38 SUPER HEADSPACE GAUGE STEEL

[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER NO-GO HEADSPACE GAUGES The Clymer No-Go Headspace Gauges are precision tools designed to help gunsmiths and firearm enthusiasts verify that a firearm's chamber does not exceed the maximum safe headspace dimensions. By identifying excessive chamber length, these gauges prevent potential safety hazards such as case ruptures or misfires, ensuring the firearm operates within the specified tolerances. They are essential during the chambering of new barrels, routine maintenance, or when assessing used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer No-Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer No-Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [CLYMER NO GO 38 SUPER HEADSPACE GAUGE STEEL](#)

Safety Instruction Guide for HEADSPACE GAUGES NOGO CLYMER NO GO 38 SUPER HEADSPACE GAUGE STEEL

Introduction

Thank you for choosing the HEADSPACE GAUGES NOGO CLYMER NO GO 38 SUPER HEADSPACE GAUGE STEEL. This product is designed to help ensure the safe and accurate measurement of the chamber length of your rifle. It is essential for ensuring a tight, accurate, and safe chamber, especially when chambering a new barrel or checking a used gun before firing. Please read this safety instruction guide carefully to understand how to use this product safely and effectively.

General Safety Guidelines

- Ensure that the gauge is used only for its intended purpose, which is to measure headspace in firearms.
- Always handle firearms and related tools with care and in accordance with established safety practices.
- Keep the gauge out of reach of children and unauthorized users.
- Regularly inspect the gauge for any signs of wear or damage before each use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform to stay informed about any safety concerns related to this product.

Specific Safety Precautions for Use

- Always ensure that the firearm is unloaded before using the gauge.
- Use the gauge only when you are in a safe environment, free from distractions.
- Follow the manufacturer's instructions for using the gauge to avoid mismeasurement.
- Do not force the gauge into the chamber; it should fit without excessive pressure.
- If the gauge does not fit properly, do not attempt to modify it in any way.
- Be aware of the potential hazards associated with the use of firearms and related tools, including accidental discharge.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Clean the chamber area of the firearm to remove any debris or obstructions.

2. Using the Gauge:

- Select the appropriate Clymer No Go gauge for the 38 Super caliber.
- Insert the gauge into the chamber of the firearm gently.
- Ensure that the gauge is fully seated in the chamber without forcing it.
- Check the gauge marking; it should indicate "NoGo" if the chamber is within specifications. If it fits easily, the chamber may be too long and require adjustment.

3. PostUse:

- Remove the gauge from the chamber carefully.
- Clean the gauge after use to maintain its accuracy and longevity.
- Store the gauge in a secure location, away from children and unauthorized users.

Disposal Instructions

- Dispose of the gauge in accordance with local regulations regarding metal products.
- If the gauge is damaged or no longer usable, ensure it is disposed of safely to prevent any potential hazards.

Contact Information for Further Support

For any inquiries or concerns regarding the use of the HEADSPACE GAUGES NOGO CLYMER NO GO 38 SUPER HEADSPACE GAUGE STEEL, please refer to the manufacturer's contact information provided with the product packaging or documentation.

Thank you for prioritizing safety while using this product. Your adherence to these guidelines contributes to a safer environment for all users.
