Introduction

Thank you for choosing the Forster Headspace Gauge. This product is designed to help you determine if your rifle headspace is correct and within SAAMI specifications. Please read this guide carefully to ensure safe and effective use of the gauge.

General Safety Guidelines

- Ensure that you are familiar with the operation of your rifle before using the headspace gauge.
- Always handle firearms and related tools with care to prevent accidents.
- Keep the headspace gauge out of reach of children and unauthorized users.
- Regularly inspect the gauge for any signs of damage or wear before use. Do not use if damaged.
- Follow all local regulations and laws regarding the use of firearms and related equipment.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as eye protection, when using the headspace gauge.
- Use the gauge in a welllit and safe environment to avoid accidents.
- Do not force the gauge into the chamber; it should fit smoothly without excessive pressure.
- Ensure that the rifle is unloaded before inserting the gauge.
- After use, store the gauge in a safe place to prevent accidental damage or misuse.

Instructions for Installation and Usage

1. Preparation:

- Ensure your rifle is completely unloaded and pointed in a safe direction.
- Gather your Forster Headspace Gauge and any necessary tools.

2. Inserting the Gauge:

- Select the appropriate gauge length: "GO", "NO GO", or Field Gauge.
- Gently insert the gauge into the chamber of your rifle.
- Ensure the gauge is seated properly without forcing it.

3. Checking Headspace:

- For the "GO" gauge, it should fit without resistance. If it does not fit, your headspace is too short.
- For the "NO GO" gauge, it should not fit. If it does fit, your headspace is too long.
- The Field Gauge is primarily for checking rifles that may be out of spec. If the Field Gauge fits, consult a qualified gunsmith.

4. Removing the Gauge:

- Carefully remove the gauge from the chamber after the checks are complete.
- Clean the gauge and store it properly.

Disposal Instructions

- Dispose of the Forster Headspace Gauge in accordance with local regulations.

- If the gauge is damaged or no longer usable, do not attempt to repair it. Dispose of it responsibly.
