

TRU-DOT® TRITIUM NIGHT SIGHT SETS FOR GLOCK® - GLOCK TRU-DOT® NIGHT SIGHTS FOR GLOCK 42/43

Really "shines" when other sights are useless. No switch to turn on, no batteries to wear out. Both front and rear blades have their own green tritium gas light source and provide a green/green , 3-dot sight picture. Some models also available in green/yellow and green/orange. The front sight is always green for contrast with the rear sight. Unaffected by weather, gun solvents or oils. Used by NATO, U.S., and Israeli armies. Also ideal for law enforcement and others requiring accuracy in low-light conditions. Contains both front and rear sights. Rear sights either replace the original rear entirely or, as on S&W revolvers, a new rear leaf, screw and nut are provided. Front sights either replace the original (1911 Auto); slip over and are pinned to the original blade (most other autos); or replace the factory colored insert (S&W Autos). Factory warranty on TRU-DOT sights to the original purchaser for 12 years.

Attributes

TRUDOT® Tritium Night Sight Set for Glock® Safety Instructions

Introduction

Thank you for choosing the TRUDOT® Tritium Night Sight Set for Glock® (Models 42 and 43). These night sights are designed to enhance your shooting experience, especially in lowlight conditions. This safety instruction guide aims to provide you with essential information regarding the safe use, installation, and disposal of this product, in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only as intended.
- Always handle firearms and related accessories safely and responsibly.
- Keep the night sights out of reach of children and vulnerable individuals.
- Regularly check for any damage or wear to the sights before use.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about recalls or safety notices through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Do not attempt to modify or alter the night sights in any way.
- Avoid exposing the sights to extreme temperatures or harsh chemicals.
- Ensure that the sights are properly installed before using your firearm.
- Use the sights only on compatible Glock® models (42 and 43).
- Do not use the sights if they appear damaged or if the tritium gas is leaking.

Instructions for Installation and Usage

Installation

1. **Read the Manual:** Before installation, read the product manual thoroughly.
2. **Gather Tools:** Ensure you have the necessary tools, including:
 - Screwdriver
 - Pliers (if needed)
3. **Remove Old Sights:** Carefully remove the existing sights from your Glock®.
4. **Install Front Sight:**
 - For models that require replacement, align the new front sight with the mounting area.
 - Secure it by either replacing the original sight or pinning it as instructed.
5. **Install Rear Sight:**
 - Replace the original rear sight entirely or attach the new rear leaf using the provided screw and nut.
6. **Check Alignment:** Ensure both sights are aligned correctly for optimal aiming.
7. **Test Functionality:** Before using the firearm, test the sights in a safe environment.

Usage

- Use the sights in lowlight conditions for improved visibility.
- Familiarize yourself with the sight picture (green/green, 3dot configuration).
- Practice regularly to ensure accuracy and comfort with the sights.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding hazardous materials.
- If the sights are damaged or no longer usable, contact your local waste management facility for proper disposal methods.
- Do not throw the sights in regular household waste.

Contact Information for Further Support
