

VICKERS PUSH BUTTON SLING WITH SWIVELS - BLUE FORCE GEAR

VICKERS PUSH BUTTON SLING W/SWIVELS MULTICAM

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Slings](#)

The Vickers Push Button Sling You asked and we listened. Prompted by a flood of requests and the growing popularity of push button sockets on premium rifles, we have reintroduced the Vickers Push Button Slings. The Vickers Push Button Sling combines premium American-made push button swivels with the world class Vickers Sling™ to make the finest combat weapon sling on the planet. The Vickers Push Button Sling starts with Vickers Combat Applications Slings - trusted by over 500,000 Marines, Soldiers, and Airmen - the tactical sling can instantly lengthen or shorten by the patented Quick Adjuster. This allows the user to have the weapon secure in a hands free carry and quickly lengthen the sling into a shooting position with no moving parts, clips, springs, or other awkward parts. The Quick Adjuster - Contrasting Pull Tab Able to quickly transition from carrying a slung rifle comfortably to combat ready, the patent pending Quick Adjuster has bridged the gap between the two primary uses of weapon slings - from transporting to fighting. All Vickers Push Button Slings™ are built with precision and pride right here at home in the US with superior materials. Attachment Hardware: Push Buttons A 1" push button "QD" swivel is sewn to the front of the sling and another 1.25" push button "QD" swivel is "captive" at the rear. This creates a simple, streamlined, lightweight sling that can mount to any weapon with quick release sockets. The push button swivels are not removable preventing them from being lost or the sling misconfigured. Adjuster & Triglides Build This Nylon Hardware version features all DuPont Zytel® nylon - which is lighter, stronger, and more flexible than traditional plastic sling hardware. The majority of the BFG slings shipped to the US Military feature Nylon Hardware. Specifications Compatibility - Weapons with two Push Button Sling Swivel sockets at the front and rear of the weapon Installation - Two Push Button Sockets (front and rear of weapon) Size - 1.25" sling webbing Hardware Build - Glass reinforced DuPont Zytel® Nylon hardware Sling Build - Invista solution dyed CORDURA® webbing Length - Overall sling length is adjustable from 36" to 62"

Vickers Push Button Sling Safety Instruction Guide

Introduction

Thank you for choosing the Vickers Push Button Sling with Swivels by Blue Force Gear. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your sling. Please read this manual carefully before using the product.

General Safety Guidelines

- Ensure the sling is compatible with your weapon before use.
- Always inspect the sling for any signs of wear or damage before each use.
- Do not exceed the recommended weight limit of the sling.
- Keep the sling away from children and vulnerable individuals.
- Use the sling only for its intended purpose as a weapon carrying accessory.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Risk of accidental release: Ensure that the push button swivels are securely fastened before carrying the weapon.
 - Risk of entanglement: Be cautious of loose ends of the sling that may become caught in machinery or other equipment.
 - Risk of injury: Avoid placing the sling in a position where it could cause injury to yourself or others during use.
- **Instructions for Avoiding Hazards:**
 - Always doublecheck that the sling is properly adjusted and secured before use.
 - Do not attempt to modify or repair the sling on your own.
 - Avoid using the sling in extreme weather conditions that may affect its performance.
 - Ensure that the sling is not overloaded beyond its intended capacity.

Instructions for Installation and Usage

- **Installation:**
 1. Identify the push button sling swivel sockets on your weapon.
 2. Attach the 1" push button "QD" swivel to the front socket.
 3. Attach the 1.25" push button "QD" swivel to the rear socket.
 4. Ensure both swivels are securely fastened and cannot be removed unintentionally.
- **Usage:**
 - To adjust the length of the sling, use the patented Quick Adjuster.
 - For a handsfree carry, ensure the sling is adjusted to a comfortable length.
 - To transition to a shooting position, pull the Quick Adjuster to lengthen the sling as needed.
 - Always maintain a firm grip on your weapon when transitioning between carry and shooting positions.

Disposal Instructions

- Dispose of the sling in accordance with local regulations for nylon and plastic materials.
- Do not dispose of the sling in regular household waste if it is damaged or worn.
- Consider recycling the materials if possible.

Contact Information for Further Support

For any inquiries regarding safety or product information, please contact the manufacturer directly. Ensure you have the product details ready for a quicker response.

Thank you for your attention to these safety guidelines. Your safety and the safety of others depend on the proper use and maintenance of the Vickers Push Button Sling.
