The Vickers Push Button Sling You asked and we listened. Prompted by a flood of requests and the growing popularity of push button sockets on premium rifles, we have reintroduced the Vickers Push Button Slings. The Vickers Push Button Sling combines premium American-made push button swivels with the world class Vickers Sling™ to make the finest combat weapon sling on the planet. The Vickers Push Button Sling starts with Vickers Combat Applications Slings - trusted by over 500,000 Marines, Soldiers, and Airmen - the tactical sling can instantly lengthen or shorten by the patented Quick Adjuster. This allows the user to have the weapon secure in a hands free carry and quickly lengthen the sling into a shooting position with no moving parts, clips, springs, or other awkward parts. The Quick Adjuster - Contrasting Pull Tab Able to quickly transition from carrying a slung rifle comfortably to combat ready, the patent pending Quick Adjuster has bridged the gap between the two primary uses of weapon slings - from transporting to fighting. All Vickers Push Button Slings™ are built with precision and pride right here at home in the US with superior materials. Attachment Hardware: Push Buttons A 1" push button "QD" swivel is sewn to the front of the sling and another 1.25" push button "QD" swivel is "captive" at the rear. This creates a simple, streamlined, lightweight sling that can mount to any weapon with quick release sockets. The push button swivels are not removable preventing them from being lost or the sling misconfigured. Adjuster & Triglides Build This Nylon Hardware version features all DuPont Zytel® nylon - which is lighter, stronger, and more flexible than traditional plastic sling hardware. The majority of the BFG slings shipped to the US Military feature Nylon Hardware. Specifications Compatibility - Weapons with two Push Button Sling Swivel sockets at the front and rear of the weapon Installation - Two Push Button Sockets (front and rear of weapon) Size - 1.25" sling webbing Hardware Build - Glass reinforced DuPont Zytel® Nylon hardware Sling Build - Invista solution dyed CORDURA® webbing Length - Overall sling length is adjustable from 36" to 62"

Vickers Push Button Sling Safety Instructions

Introduction

Thank you for purchasing the Vickers Push Button Sling with Swivels by Blue Force Gear. This product is designed for safe and effective use in various tactical situations. Please read this safety instruction guide carefully to ensure proper use and maintenance of your sling, in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

To ensure your safety and the safety of others while using the Vickers Push Button Sling, please follow these general safety guidelines:

- **Product Safety:** This product has been designed to meet safety standards. However, improper use can lead to accidents.
- **Enhanced Recalls:** Stay informed about potential recalls. Follow instructions provided in recall notices.
- **Online Shopping:** Ensure you purchase from authorized sellers to guarantee product authenticity and safety.
- **Special Consumer Focus:** Extra care should be taken when this product is used by or around vulnerable groups, including children.
- **EU Contact Point:** For any safety inquiries, please refer to the appropriate EU-based contact point.
- **Rapid Alerts:** Be aware of updates on unsafe products through the EU's Safety Gate platform.

Specific Safety Precautions for Use

When using the Vickers Push Button Sling, please observe the following safety precautions:

- **Check Compatibility:** Ensure the sling is compatible with your weapon before use. It is designed for weapons with two Push Button Sling Swivel sockets at the front and rear.
- **Inspect Before Use:** Always inspect the sling for any signs of wear or damage before each use. Do not use if damaged.
- **Secure Attachment:** Ensure that the push button swivels are securely attached to the weapon before carrying.
- **Avoid Overloading:** Do not exceed the recommended weight limit for the sling. Overloading can lead to failure.
- **Use in Safe Environments:** Avoid using the sling in crowded or unstable environments where accidental discharge could occur.
- **Proper Handling:** Always handle the weapon with care, treating it as if it is loaded, even when you believe it is not.

Instructions for Installation and Usage

To install and use your Vickers Push Button Sling safely, please follow these instructions:

1. Installation:

- Identify the two Push Button Sling Swivel sockets on your weapon (front and rear).
- Attach the 1" push button "QD" swivel to the front socket.
- Attach the 1.25" push button "QD" swivel to the rear socket, ensuring it is captive.
- Verify that both swivels are securely attached and cannot be easily removed.

2. Adjusting the Sling:

- To lengthen or shorten the sling, use the patented Quick Adjuster.
- Pull the contrasting pull tab to adjust the length of the sling as needed.
- Ensure the sling is secure and properly adjusted before carrying the weapon.

3. **Carrying the Sling:**

- When not in use, the sling can be worn across the body for handsfree carrying.
- To transition to a shooting position, pull the Quick Adjuster to lengthen the sling without moving any parts.

4. **PostUse Inspection:**

- After use, inspect the sling for any signs of wear or damage.
- Store the sling in a cool, dry place away from direct sunlight and moisture.

Disposal Instructions

When the Vickers Push Button Sling reaches the end of its useful life, please dispose of it responsibly:

- **Material Recycling:** Check local regulations for recycling options for nylon and plastic materials.
- **Safe Disposal:** If recycling is not available, dispose of the sling in accordance with local waste management guidelines.

Contact Information for Further Support

For additional support or inquiries regarding the Vickers Push Button Sling, please refer to the appropriate contact point in your region. It is important to have access to assistance for any safetyrelated questions or concerns.

By following these safety instructions, you can ensure a safe and effective experience with your Vickers Push Button Sling. Thank you for your attention to these important guidelines.
