

OTB SIDE ARMOR BAGS - SPIRITUS SYSTEMS OTB SIDE ARMOR BAGS - COYOTE BROWN

[Home](#)

OTB Side Armor Bags Over The Beach Operations are some of the most challenging and miserable operations that service members must endure. We are proud to bring a suite of products that directly results in improved load carriage and soldier survival during sea borne operations. The OTB product line is built with a mesh material which allows for quick drainage of water and sea borne debris such a sand. OTB products will dry faster after exiting the water and will drain water faster and more efficiently as well. The mesh also makes the products simple to clean using fresh water after conducting operations in salt environments. The LV/ Side Armor Bags - Over The Beach (OTB) The LV/ Side Armor Bags are modular in design and allow for the use of hard armor plates, soft armor inserts (with the addition of one of our Side Armor Bag Caps™), or both hard and soft armor at the same time. The bags were built with an offset MOLLE configuration which allows the user to wear the plates as far forward on the cummerbund as possible. Wearing your side armor as far forward allows for side plate to front plate contact, and closes a small gap in protection left over by traditional side armor systems currently on the market. Side Armor Bags are compatible with MOLLE cummerbunds and will not work with elastic cummerbunds. The OTB model of the LV/ Side Armor Bags are made with a mesh material, which allows for quick drainage of water and sea borne debris such a sand. They are also easily cleaned with fresh water after conducting operations in salt water. Plate Fitment: The LV/ Side Armor Bags are built with stretch materials to accommodate 6 x 6 inch hard armor plates up to 1 inch thick in a stand alone configuration. The use of soft armor inserts require the addition of our Side Armor Bag Caps™ which can then accommodate 5" x 7" to 5"x 14" rectangular soft armor inserts. NOTE: This component is an optional accessory to the Spiritus Systems Side Armor LV/119 Plate Carrier system. Soft Armor, the Plate carrier and all other components are sold separately.

Attributes

OTB Side Armor Bags Safety Instruction Guide

Introduction

Thank you for choosing the OTB Side Armor Bags by Spiritus Systems. These bags are designed to enhance load carriage and soldier survival during Over The Beach (OTB) operations. This guide provides essential safety instructions to ensure the safe use of your product.

General Safety Guidelines

- Ensure that you read and understand all instructions before using the OTB Side Armor Bags.
- Always inspect the bags for any signs of wear, damage, or defects before each use.
- Use the bags only for their intended purpose. Do not exceed the recommended weight limits.
- Keep the bags away from sharp objects that could cause punctures or tears.
- Store the bags in a dry place to prevent mold and mildew growth.
- If you experience any discomfort or adverse effects while using the bags, discontinue use immediately and consult a professional.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) in conjunction with the OTB Side Armor Bags.
- Ensure that hard armor plates and soft armor inserts are properly fitted to avoid shifting during use.
- When using the bags in wet conditions, ensure they are properly drained and dried after use to maintain their integrity.
- Be aware of your surroundings and avoid using the bags in environments where they may become entangled or caught on objects.

Instructions for Installation and Usage

1. Preparation

- Choose the appropriate hard armor plates or soft armor inserts for your needs.
- Ensure that the armor plates are compatible with the LV/ Side Armor Bags.

2. Installation of Armor Plates

- Open the side compartments of the OTB Side Armor Bags.
- Insert the hard armor plates into the designated pockets, ensuring they fit snugly.
- If using soft armor inserts, attach them using the Side Armor Bag Caps™ as needed.

3. Adjusting the Fit

- Adjust the bags on your cummerbund to ensure a secure and comfortable fit.
- Position the bags as far forward as possible on the cummerbund to maximize protection.

4. Using the Bags

- Once fitted, ensure that the bags are securely fastened and that there is no excess movement.
- Conduct a final check to ensure that the armor plates are properly aligned and secured.

5. PostUse Care

- After use, rinse the bags with fresh water to remove salt and debris.
- Allow the bags to dry completely before storing them to prevent damage.

Disposal Instructions

- Dispose of the OTB Side Armor Bags in accordance with local regulations.
- If the bags are damaged or no longer usable, consider recycling the materials where possible.
- Do not dispose of the bags in regular household waste if they contain hazardous materials.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please contact the manufacturer directly. Ensure that you have your product details ready for the most effective assistance.

By following these guidelines, you can ensure the safe and effective use of your OTB Side Armor Bags. Thank you for your commitment to safety and performance.
