

# ARMORERS CASE GEN III - BROWNELLS ARMORER'S GEN 3 CASE WITHOUT FOAM INSERTS

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Tool Storage](#) > [Tool Boxes](#)

Brownells Generation III Armorers Case – Built to Extreme Testing Standards Enhanced Armorers Case now has the ability to be an easy to access toolbox in your workshop, and quickly configured for transport. Manufactured from durable polypropylene, the Gen III Armorers Case is waterproof and durable enough for any expedition (See below for Test Specifications). With three (3x) 2.4in tall and two (2x) 1.2 in drawers, there is plenty of storage for your essential tools. Case features two carrying handles on either side, as well as top telescoping luggage handle for use with the two integral wheels. Front door and top lid can be removed, by turning a locking screw in the hinge, allowing for easy access to drawers and to compartment when not travelling. Drawers have depressible tabs, that allow complete drawer removal, while also ensuring tools don't inadvertently fall out. Stackable design ensures any additional Armorers Cases neatly stack for clean organization. Top and front jam free lid latches are easy to operate and firmly secure all sides in transit. Interior of Lid features a clear polymer door, so that documentation, spare parts or additional tools can be stored in otherwise unused space. Optional pluckable foam keeps tools from shifting during transit and protects your investments. Drawer Internal Dimensions: Large Drawer: 2.4 inches Tall x 18.4 inches Wide x 10 inches Deep Small Drawer: 1.2 inches Tall x 18.4 inches Wide x 10 inches Deep Top Removable Tray Internal Dimensions: 1.25 inches Tall x 18 inches Wide x 10.25 inches Deep Total Case Weight: 21.49 lbs Operating Temperature: -27.4°F to 194°F Test Specifications: STANAG 4280 - DEF-STD 81-41 (Part 3 Issue 4) Impact Horizontal Test - 2.5m Impact Vertical Test - 2.5m Vibration Test - 5-350Hz Dry-Heat Test - 68 to 176 °F 50-80% Humidity for 3 hours Low Temp Test Storage Test - -40°F to 194°F, humidity not less than 90%, cycle of 28 times CEI EN 60529 Dust Ingress Test - 2-8 Hours Water Ingress Test - 1m for 30min

# ARMORERS CASE GEN III BROWNELLS ARMORER'S GEN 3 CASE WITHOUT FOAM INSERTS Safety Instruction Guide

## Introduction

Thank you for choosing the Brownells Generation III Armorers Case. This guide provides essential safety information and instructions to ensure the safe use and maintenance of the product. Please read this guide thoroughly before use.

## General Safety Guidelines

- Always ensure that the Armorers Case is used according to the manufacturer's instructions.
- Keep the case out of reach of children and vulnerable individuals to prevent accidents.
- Inspect the case regularly for any signs of damage or wear. Do not use if damaged.
- Ensure that the case is closed and secured properly during transport to prevent accidental opening.
- Be aware of the weight of the case when fully loaded; do not exceed the maximum weight limit.
- If you notice any unusual sounds or difficulty in opening or closing the drawers, discontinue use and check for obstructions or damage.

## Specific Safety Precautions for Use

- **Weight Limit:** The total case weight is 21.49 lbs (9.75 kg). Ensure that you do not exceed this weight when loading tools and equipment.
- **Temperature Range:** The case can operate within a temperature range of 27.4°F to 194°F. Avoid exposing the case to extreme temperatures for extended periods.
- **Water and Dust Resistance:** While the case is waterproof and dustproof, ensure that it is properly sealed during use to maintain these properties.
- **Drawer Safety:** When removing drawers, use the depressible tabs carefully to avoid injury. Ensure that tools are secured within the drawers to prevent them from falling out.
- **Stacking:** If stacking multiple Armorers Cases, ensure they are stable and do not exceed the recommended stacking height to avoid tipping.

## Instructions for Installation and Usage

### 1. Setting Up the Case:

- Place the Armorers Case on a flat, stable surface.
- Ensure that the case is closed and locked before moving it.

### 2. Loading Tools:

- Open the front door and top lid by turning the locking screw in the hinge.
- Load tools into the drawers, ensuring that heavier items are placed at the bottom.
- Close the drawers securely and check that they are not obstructed.

### 3. Transporting the Case:

- Use the two carrying handles on either side or the top telescoping luggage handle for easy transport.
- Ensure that the wheels are functioning properly before moving the case.

#### **4. Accessing Tools:**

- To access tools, unlock and open the front door and top lid.
- Use the depressible tabs to remove drawers if necessary.

#### **5. Cleaning and Maintenance:**

- Clean the exterior and interior of the case with a damp cloth. Avoid using harsh chemicals.
- Regularly check the locking mechanisms and handles for proper function.

## **Disposal Instructions**

- Dispose of the Armorers Case in accordance with local regulations regarding plastic waste.
- If the case is no longer usable, consider recycling it if possible.
- Do not dispose of the case in regular household waste if it can be recycled.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the safety and use of the Armorers Case, please refer to the manufacturer's contact information provided with your product.

By following these safety instructions, you can ensure the safe and effective use of your Brownells Generation III Armorers Case. Thank you for your attention to these important guidelines.
