

ZERO M-SERIES SIZING DIES - AREA 419 ZERO M-SERIES 6MM GT SIZING DIE W/ZERO SHELL HOLDER

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The ZERO M-Series Sizing die is the culmination of years of testing, research, trial, error, frustration, and finally, discoveries. As Reloaders, Area 419 knew they needed a die to do certain things, but as the makers of the ZERO Reloading Press, Area 419 also learned a huge amount about what other dies did well or did poorly, and what customers were struggling with on a daily basis. With the ZERO M-Series Sizing Die, Area 419 produced a sizing die that is capable of producing the finest, match-grade ammunition, as well as being user-friendly to new and learning reloaders. Sizing brass doesn't have to be complicated. It doesn't have to require years of trial and error. It just needs equipment, made with the end-user in mind, designed with the understanding that a die is part of an ecosystem of parts. A press, a die, the brass, the rifle – they all have to work together and be designed with one another in mind. This is that. Introducing, the ZERO M-Series Sizing Die. KEY FEATURES Micrometer Adjustable Headspace/Shoulder Bump Precision Ground Expander Mandrels (all dies ship with a .002 neck tension mandrel, or add more increments with Area 419's MANDREL KIT) Full-Length Neck to Extractor Sizing Spring Ejection for Spent Primers Replaceable Steel Decap Pins Reamer Cut to Exacting Dimensions for a TRUE Size (no more sticky bolt after the second firing) Hydraulic Shoulder Pressure Relief 100% Made in AMERICA All dies ship with an Area 419 ZERO Die Ring, a spare decapping pin and necessary install/removal tools. After testing them all, and finding everything Area 419 like and didn't like, and working with thousands of customers and a variety of industry partners, they believe this is what a sizing die should be. Area 419 think you'll agree. NOTE: THIS IS A 1-1/4" DIE, AND REQUIRES A HYBRID OR 1-1/4" TURRET ON YOUR ZERO (OR OTHER PRESS). IT CANNOT BE USED WITH A 7/8" TURRET OR OTHER 7/8" PRESS.

ZERO MSERIES SIZING DIES SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the ZERO MSeries Sizing Die from Area 419. This product is designed for precision reloading and to help you create matchgrade ammunition safely and efficiently. Please read this safety instruction guide carefully to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always use the ZERO MSeries Sizing Die in accordance with the manufacturer's instructions.
- Ensure that your reloading equipment is in good working condition before use.
- Keep the workspace clean and free from distractions.
- Store all reloading components, including the sizing die, in a safe and secure location, away from children and pets.
- Regularly check for any signs of wear or damage on the die and associated equipment.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading materials.

Specific Safety Precautions for Use

- **Hazards:**
 - Improper use of the sizing die can lead to injuries, including cuts or pinches from moving parts.
 - Using the die with incompatible equipment may result in damage to the die or injury to the user.
- **Avoiding Hazards:**
 - Ensure that the die is compatible with your reloading press before installation.
 - Do not exceed the recommended pressure limits when using the die.
 - Always follow the correct procedures for resizing brass to prevent accidents.
- **AgeSpecific Warnings:**
 - This product is intended for use by adults only. Keep out of reach of children.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is turned off and unplugged before installation.
- Remove any existing die from the press.
- Insert the ZERO MSeries Sizing Die into the press, ensuring it is securely fastened.
- Attach the ZERO Die Ring and any additional components as per the manufacturer's instructions.

2. Usage:

- Prepare your brass by inspecting it for damage before resizing.
- Follow the micrometer adjustments for headspace and shoulder bump as needed.
- Insert the brass into the die and operate the press smoothly to resize the brass.
- After resizing, check the brass for proper fit and dimensions before proceeding with reloading.

3. PostUsage:

- Clean the die after each use to remove any debris or residue.
- Store the die in its original packaging or a secure location to prevent damage.

Disposal Instructions

- Dispose of any damaged or wornout components according to local regulations.
- Do not dispose of the sizing die in regular household waste. Check with local authorities for proper disposal methods for metal components.

Contact Information for Further Support

For any questions or concerns regarding the ZERO MSeries Sizing Die, please refer to the manufacturer's website or contact their customer support for assistance.

Conclusion

By following these safety instructions, you can ensure a safer reloading experience with the ZERO MSeries Sizing Die. Always prioritize safety and adhere to the guidelines provided to enhance your reloading practices. Thank you for your attention and safe reloading!
