

ZERO M-SERIES SIZING DIES - AREA 419 ZERO M-SERIES 6.5X47MM LAPUA SIZING DIE W/ZERO SHELL HOLDER

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The ZERO M-Series Sizing die is the culmination of years of testing, research, trial, error, frustration, and finally, discoveries. As Reloaders, Area 419 knew they needed a die to do certain things, but as the makers of the ZERO Reloading Press, Area 419 also learned a huge amount about what other dies did well or did poorly, and what customers were struggling with on a daily basis. With the ZERO M-Series Sizing Die, Area 419 produced a sizing die that is capable of producing the finest, match-grade ammunition, as well as being user-friendly to new and learning reloaders. Sizing brass doesn't have to be complicated. It doesn't have to require years of trial and error. It just needs equipment, made with the end-user in mind, designed with the understanding that a die is part of an ecosystem of parts. A press, a die, the brass, the rifle – they all have to work together and be designed with one another in mind. This is that. Introducing, the ZERO M-Series Sizing Die. KEY FEATURES Micrometer Adjustable Headspace/Shoulder Bump Precision Ground Expander Mandrels (all dies ship with a .002 neck tension mandrel, or add more increments with Area 419's MANDREL KIT) Full-Length Neck to Extractor Sizing Spring Ejection for Spent Primers Replaceable Steel Decap Pins Reamer Cut to Exacting Dimensions for a TRUE Size (no more sticky bolt after the second firing) Hydraulic Shoulder Pressure Relief 100% Made in AMERICA All dies ship with an Area 419 ZERO Die Ring, a spare decapping pin and necessary install/removal tools. After testing them all, and finding everything Area 419 like and didn't like, and working with thousands of customers and a variety of industry partners, they believe this is what a sizing die should be. Area 419 think you'll agree. NOTE: THIS IS A 1-1/4" DIE, AND REQUIRES A HYBRID OR 1-1/4" TURRET ON YOUR ZERO (OR OTHER PRESS). IT CANNOT BE USED WITH A 7/8" TURRET OR OTHER 7/8" PRESS.

Attributes

- Name: [AREA 419 ZERO M-SERIES 6.5X47MM LAPUA SIZING DIE W/ZERO SHELL HOLDER](#)
- Manufacturer: [AREA 419](#)
- Product no.: 430107259
- Mfr. No.: 419-ZERODIE-M6547SH
- Cartridge: 6.5 x 47 mm Lapua
- Die Style: Sizing Dies
- Delivery weight: 1.361kg
- Shipping height: 51mm
- Shipping width: 152mm

ZERO MSeries Sizing Die Safety Instructions

Introduction

Thank you for choosing the ZERO MSeries Sizing Die. This product has been designed with the utmost care to provide you with a reliable and userfriendly experience in reloading ammunition. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always ensure you are using the sizing die in accordance with the manufacturer's specifications and guidelines.
- Familiarize yourself with the equipment before use, including all components of your reloading setup.
- Keep the workspace clean and organized to prevent accidents.
- Store the die in a safe, dry place when not in use to prevent damage.
- Regularly inspect the die for wear and tear. Do not use if damaged.
- Ensure that all components used in conjunction with the die are compatible and in good working order.
- Follow all local laws and regulations regarding the reloading of ammunition.

Specific Safety Precautions for Use

- Always wear safety glasses to protect your eyes from debris during the reloading process.
- Keep hands and body clear of moving parts when operating the reloading press.
- Use gloves if handling sharp or heavy components.
- Do not exceed the recommended load specifications for the ammunition you are reloading.
- Ensure that the die is securely attached to the press before use to prevent accidents.
- Use the die only for its intended purpose. Do not modify or misuse the product.
- If you are new to reloading, seek guidance from experienced reloaders or consult instructional resources.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is compatible with the ZERO MSeries Sizing Die (11/4" die required).
- Securely attach the die to the press according to the manufacturer's instructions.
- Insert the ZERO shell holder into the press as per the provided guidelines.

2. Usage:

- Prepare your brass by cleaning and inspecting it for defects.
- Insert the brass case into the shell holder and ensure it is seated correctly.
- Adjust the micrometer headspace/shoulder bump to your desired settings.
- Operate the press slowly and steadily, applying even pressure.
- After sizing, remove the brass case and inspect it for proper sizing.
- Eject the spent primer using the spring ejection feature.

3. PostUsage:

- Clean the die after use to remove any debris or residue.
- Store the die and components in a secure location to prevent loss or damage.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the die or any parts in regular household waste.
- Check for local recycling programs that accept metal components.

Contact Information for Further Support

For any safety inquiries or support regarding the ZERO MSeries Sizing Die, please refer to the manufacturer's website or customer service resources.

Conclusion

Your safety is paramount when using the ZERO MSeries Sizing Die. By following these guidelines and precautions, you can ensure a safe and enjoyable reloading experience. Thank you for choosing Area 419 for your reloading needs.
