

SUPER PRECISION TRIJICON MRO MOUNTS - GEISSELE AUTOMATICS ABSOLUTE CO-WITNESS DDC MRO MOUNT

[Optics & Mounting](#) > [Electronic Sights](#) > [Mounting Hardware](#)

The Super Precision MRO Series was developed specifically to work with the Trijicon MRO and like mounted red dot optics. These mounts are precision machined from a single piece of 7075-T6 high strength aluminum and are available in both co-witness and lower third co-witness options. Utilizing Geissele's update of the classic nut and bolt method, this mount will attach your red dot to your weapon with 1,400 pounds of clamping force, and features 3 shear lugs for maximum rigidity and return to zero.

SUPER PRECISION TRIJICON MRO MOUNTS GEISSELE AUTOMATICS ABSOLUTE COWITNESS DDC MRO MOUNT Safety Instruction Guide

Introduction

Thank you for choosing the Super Precision Trijicon MRO Mount from Geissele Automatics. This guide provides essential safety instructions to ensure the safe use and installation of your mount. Please read this guide thoroughly before use to understand the necessary precautions and procedures.

General Safety Guidelines

- Ensure that the mount is compatible with your Trijicon MRO and other similar optics before installation.
- Always inspect the mount for any damage or defects before use. Do not use if any part is damaged.
- Keep the mount out of reach of children and vulnerable individuals to prevent accidental injury.
- Use the mount only for its intended purpose as specified in this guide.
- Follow all local laws and regulations regarding the use of firearm accessories.

Specific Safety Precautions for Use

- **Clamping Force:** The mount provides a clamping force of 1,400 pounds. Ensure that you do not overtighten, as this may cause damage to the mount or the firearm.
- **Shear Lugs:** The mount features 3 shear lugs for maximum rigidity. Ensure they are properly engaged during installation to maintain stability.
- **Installation Surface:** Ensure that the surface on which the mount is installed is clean and free from debris to avoid improper attachment.
- **Regular Checks:** Regularly check the mount to ensure it remains securely attached to your firearm. Perform checks after extended use or if the firearm has been subjected to rough conditions.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a torque wrench and appropriate screwdrivers.
- Ensure the firearm is unloaded and pointed in a safe direction.

2. Installation:

- Remove any existing mounts or optics from the firearm.
- Clean the mounting surface on the firearm to ensure a proper fit.
- Position the Super Precision MRO Mount on the firearm's rail, aligning it with the mounting holes.
- Insert the provided screws into the mounting holes and handtighten them to hold the mount in place.
- Using a torque wrench, tighten the screws to the manufacturer's recommended torque settings to ensure a secure fit.

3. Usage:

- Once installed, attach your Trijicon MRO or other compatible optics to the mount.
- Ensure that the optic is securely fastened and properly aligned before use.
- Test the mount and optic for stability and accuracy before engaging in any shooting activities.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- When disposing of the mount, consider recycling options for aluminum components if available in your area.
- Ensure that any electronic components, if applicable, are disposed of in accordance with local electronic waste disposal guidelines.

Contact Information for Further Support

For any safety inquiries or further support, please reach out to the designated EU contact point for this product. Ensure you have the product details and any specific questions ready to facilitate assistance.

By following these guidelines, you can ensure the safe and effective use of your Super Precision Trijicon MRO Mount. Thank you for your attention to safety.
