SCT 43X Sub Compact Assembled Polymer Frame Safety Instructions

Introduction

Thank you for choosing the SCT 43X Sub Compact Assembled Polymer Frame. This guide provides important safety instructions to ensure the safe use and handling of your firearm frame. Please read this guide carefully before use to understand all safety precautions and proper handling procedures.

General Safety Guidelines

- Always treat every firearm as if it is loaded.
- Keep your finger off the trigger until you are ready to shoot.
- Never point the firearm at anything you do not intend to shoot.
- Store your firearm in a secure location, out of reach of children and unauthorized users.
- Always use appropriate eye and ear protection when handling firearms.
- Be aware of your surroundings and ensure a safe backdrop when shooting.
- Regularly inspect your firearm and its components for wear and damage.
- Follow all local laws and regulations regarding firearm ownership and usage.

Specific Safety Precautions for Use

- **Installation Warning:** The installation of components should be performed by a certified gunsmith to ensure proper function and safety.
- **Function Testing:** After assembly, perform function testing with a Glock factory slide to ensure safe operation, including checking striker engagement, trigger pull, trigger reset, and magazine function.
- **Use of Aftermarket Parts:** Be cautious when using aftermarket accessories, as SCT Manufacturing is not liable for any damage caused by their use.
- **Age Restrictions:** This product is not intended for use by individuals under the legal age for firearm ownership in your jurisdiction.
- **Vulnerable Groups:** Keep the product out of reach of children and individuals who may not understand firearm safety.

Instructions for Installation and Usage

1. Assemble the Frame:

- Ensure you have all components: SCT SC polymer frame, electroless nickel locking block, OEM trigger assembly, standard polymer magazine catch, magazine catch spring, steel trigger pin, steel locking block pin, standard OEM slide lock, slide lock coil spring, polymer trigger housing pin, OEM trigger housing with ejector, standard slide stop assembly, and polished 4.5 lb. electroless nickel trigger connector.

2. Function Testing:

- Once assembled, conduct a function test using a Glock factory slide to verify:
 - Safe operation
 - Striker engagement
 - Trigger pull and reset
 - Magazine function

3. Operational Use:

- Familiarize yourself with the frame's features, including:
 - Fully assembled with SCT SC frame with Glock OEM and SCT internals
 - Serrations and index point on trigger guard for recoil control
 - Ambidextrous mag release for versatile handling
 - Flared mag well for easier magazine changes
 - Larger trigger guard for better access when wearing gloves

4. Maintenance:

- Regularly clean the frame and inspect all components for wear and damage.
- Replace any damaged parts immediately.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding firearms and firearm components.
- Ensure that the firearm frame is rendered inoperable before disposal if it is no longer in use.

Contact Information for Further Support

For any questions or concerns regarding the SCT 43X Sub Compact Assembled Polymer Frame, please contact the manufacturer or a certified gunsmith for assistance.

Conclusion

Your safety and the safety of others is paramount. By following these guidelines and instructions, you can ensure the safe use of your SCT 43X Sub Compact Assembled Polymer Frame. Always prioritize safety and responsibility when handling firearms.
