

# UNIVERSAL CASE COLLATOR

Lee Universal Case Collator fits on top of the Universal 5 tube case feed magazine, makes filling the tubes faster on the APP, Pro 1000, Pro 4000, Load-Master and Six Pack Pro presses. Case diverter prevents inverted cases and promotes quicker filling. Hole mask allows proper head down orientation of smallest pistol cases. Works reliably for the 223 Remington. Agitation ribs promote expedited tube filling. Nearly 40% greater capacity over our original case collator.

# Safety Instruction Guide for the Lee Universal Case Collator

## Introduction

Thank you for choosing the Lee Universal Case Collator. This guide provides important safety instructions and information to ensure the safe and effective use of the product. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always inspect the product for any signs of damage or wear before use.
- Keep the product out of reach of children and vulnerable individuals.
- Do not use the product for any purpose other than its intended use.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls and safety updates via the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Use the collator only with compatible presses, including APP, Pro 1000, Pro 4000, LoadMaster, and Six Pack Pro.
- Ensure that the case diverter is properly installed to prevent inverted cases.
- Always fill tubes in a welllit area to ensure proper visibility.
- Avoid overfilling the tubes to ensure smooth operation.
- Do not attempt to modify or alter the product in any way.
- If you experience any issues while using the product, cease use immediately and consult the manufacturer.

## Instructions for Installation and Usage

### 1. Installation:

- Place the Lee Universal Case Collator securely on top of the Universal 5 tube case feed magazine.
- Ensure that the collator is aligned correctly with the feed tubes.
- Confirm that the case diverter is in place to prevent any inverted cases.

### 2. Usage:

- Begin by preparing your cases for loading.
- Fill the feed tubes with cases, ensuring they are inserted head down as indicated by the hole mask.
- Activate the press to begin filling the tubes. Monitor the operation to ensure cases are being fed correctly.
- If cases become jammed or misaligned, stop the press and clear the obstruction before resuming operation.
- After use, clean the collator to maintain optimal performance.

## Disposal Instructions

- Dispose of the product in accordance with local regulations and guidelines.
- Do not dispose of the product in general waste.
- Consider recycling options for any components that can be recycled.

## Contact Information for Further Support

For any questions or concerns regarding the Lee Universal Case Collator, please refer to the manufacturer's contact information provided with the product packaging or visit the manufacturer's website for more details.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
