

DELUXE AUTOMATIC PROCESSING PRESS

The Lee Deluxe Automatic Processing Press gives you the same priming convenience found only on expensive progressive reloading presses. Lee started with the basic APP, added the Roller Handle, Universal Case Feed Magazine and the APP Deprime kit. Then they fitted the tool with the Patented automatic primer feed system. There is no priming system made that is as fast, effortless, or uniform as the APP primer. Cases and primers are automatically fed. Primers are seated uniformly without "feel" or adjustments required. Safe with any brand or size of primer. Change primer size in seconds. Simply twist out the priming chamber and swap out the pin and primer guide. No shell holders required! When you're finished priming — simply twist out the priming tool and replace with the supplied shell holder adapter. Then you can use all the APP accessories available to Bulge Bust or Primer Pocket Swage. Includes: Press Roller Handle Priming System Universal Case Feeder APP Deprime Kit Bottle Adapter Please note: The Deluxe App is mounted to Lee's accessory Reloading Stand. Maximum case length is 30-06 or 2.494" to process cases

Safety Instruction Guide for the Lee Deluxe Automatic Processing Press

Introduction

Thank you for choosing the Lee Deluxe Automatic Processing Press. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read and follow all instructions carefully to avoid any hazards and to enjoy a seamless reloading experience.

General Safety Guidelines

- Ensure that the product is used for its intended purpose only.
- Always keep the workspace clean and free from distractions.
- Use the product in a wellventilated area to avoid inhalation of any dust or fumes.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform to stay informed about product safety.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection and gloves, when operating the press.
- Ensure that all components are securely attached before use to prevent accidents.
- Do not exceed the maximum case length of 3006 or 2.494 inches.
- Avoid using damaged or defective cases and primers.
- Never attempt to modify or alter the press in any way.
- Follow the instructions for changing primer sizes carefully to avoid misalignment.
- Do not leave the press unattended during operation.
- In case of malfunction, stop using the product immediately and consult a qualified technician.

Instructions for Installation and Usage

1. Installation:

- Mount the Deluxe Automatic Processing Press securely to Lee's accessory Reloading Stand.
- Ensure that the work surface is stable and level.
- Attach the supplied shell holder adapter when you are finished priming.

2. Usage:

- Familiarize yourself with all parts of the press, including the Roller Handle, Universal Case Feed Magazine, and APP Deprime Kit.
- Load the primer feed system with the appropriate size of primers.
- Insert cases into the Universal Case Feeder as per the guidelines.
- Begin the priming process by operating the Roller Handle smoothly.
- Monitor the operation for any unusual sounds or resistance.
- After use, remove the priming tool by twisting out the chamber and store it safely.

Disposal Instructions

- Dispose of any used primers and cases according to local regulations.
- Recycle components whenever possible to minimize environmental impact.
- Do not dispose of the product in general waste; follow local disposal guidelines for electronic and mechanical devices.
