

# DAKA BINS 2-PACK 2x2 - MAGPUL DAKA 2X2 BINS 3.6" X 3.6" X 1.8" BLACK 2/PACK

[Shooting Accessories](#) > [Gun Storage](#) > [Gun Storage Accessories](#)

DAKA Bins are designed to nest within DAKA GRID Organizer Panels to keep loose parts, gear, ammo, and other items secure inside Magpul DAKA Hard Cases or any case outfitted with the DAKA GRID Organizer. The DAKA Bins come in two sizes to provide flexibility in storage, with a pair of 2x2 DAKA Bins, with each peg on the underside of the Bin locking securely into the GRID Panels. DAKA Bins are made with transparent lids for easy contents identification, and the reinforced lid snap tabs lock securely with the Bin side tabs to keep the Bins closed. For further organization, paint-pen dot matrix panels on the lids give users additional identification capability for GRID organization. Aside from the durable lids, the DAKA Bins themselves are made from sturdy polypropylene and designed for rugged use with 0.1" thick walls to protect whatever is placed inside. The DAKA Bins come in Black, FDE, and Red, so the DAKA Bins' colors can also be used as coding for those who may need quick visual confirmation of the contents. We also made our DAKA Bins so they're equally at home outside of the DAKA GRID Organizer on your workbench or wherever you use them. Each pack comes with two (2) 2X2 Bins. Reinforced lid snap tabs lock on Bin body to secure parts, tools, and other small items. Nests into DAKA GRID Base Panels. Transparent lid for easy content identification and organization. Stackable and functional outside of the DAKA GRID Organizer. Made from durable, chemical-resistant polypropylene material. COMPATIBILITY DAKA GRID Organizer Base. Two (2) DAKA Bins/qty.

# DAKA BINS 2PACK Safety Instruction Guide

## Introduction

Thank you for choosing the DAKA BINS 2PACK. These bins are designed to provide secure storage for loose parts, gear, ammo, and other items. This guide provides essential safety instructions to ensure the safe use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always use the DAKA Bins as intended, as described in this guide.
- Keep the bins out of reach of children to prevent accidental ingestion or injury.
- Inspect the bins regularly for any signs of damage or wear. Do not use damaged bins.
- Ensure that the bins are securely locked when in use to prevent accidental opening.
- Avoid placing heavy items that exceed the bin's capacity, which may cause deformation or failure.
- Do not expose the bins to extreme temperatures or harsh chemicals that may degrade the material.

## Specific Safety Precautions for Use

- **Locking Mechanism:** Ensure that the reinforced lid snap tabs are securely locked to prevent contents from spilling out.
- **Stacking:** When stacking bins, ensure they are stable and not overloaded to avoid tipping over.
- **Identification:** Use the transparent lids and paintpen dot matrix panels for easy identification of contents. This will help prevent confusion and ensure safe access.
- **Chemical Resistance:** While the bins are made from durable, chemicalresistant polypropylene, avoid storing highly corrosive substances that may compromise the integrity of the bins.

## Instructions for Installation and Usage

### 1. Nesting the Bins:

- Place the DAKA Bins within the DAKA GRID Organizer Panels for optimal use.
- Ensure that each peg on the underside of the bin locks securely into the GRID Panels.

### 2. Using the Bins:

- Open the bin by releasing the snap tabs on the lid.
- Place items inside the bin, ensuring not to exceed the recommended weight limit.
- Close the lid and press down to engage the snap tabs securely.

### 3. Stacking Bins:

- When stacking, ensure that the bins are aligned properly and that the bottom bin is stable.
- Do not stack beyond the recommended height to maintain stability.

### 4. Identification of Contents:

- Use the transparent lid to easily view contents.
- Utilize the paintpen dot matrix panels for labeling and organization.

## Disposal Instructions

- Dispose of the DAKA Bins responsibly in accordance with local regulations.
- If the bins are damaged or no longer usable, consider recycling the polypropylene material, if facilities are

available.

- Do not incinerate the bins, as this may release harmful substances.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the DAKA BINS, please refer to the product packaging for contact information or visit the manufacturer's website.

**Important Note:** Always stay informed about product recalls and safety updates through the EU's Safety Gate platform. Report any unsafe products or incidents to the relevant authorities to ensure consumer safety.

Thank you for your attention to these safety guidelines. Enjoy the secure and organized storage that DAKA BINS provide!
