

MOE TR MIL-SPEC CARBINE STOCK - MAGPUL MOE TR CARBINE STOCK MILSPEC BLACK

[Rifle Parts](#) > [Stock Parts](#) > [Buttstocks](#)

MOE TR MIL-SPEC CARBINE STOCK At only eight ounces, the MOE® Trigger Release (TR) is one of Magpul's lightest stocks. Thanks to its ambidextrous, textured Trigger Release adjustment mechanism, it's also one of the easiest for making LOP adjustments, as well as installing or removing the stock. The Trigger Release combines with a newly developed takedown lever that also makes the MOE TR stock Magpul's easiest stock to install and remove on your firearm. That means no more leveraging a high-tension spring to mount and remove your stock; the innovative, one-handed toolless takedown lever allows quick and easy installation and removal. It includes a "padlock" icon to indicate whether the stock is locked or unlocked. Once the lever is positioned in the "locked" position, it can't be removed from the receiver extension, ensuring it won't slide off when making LOP adjustments. The takedown lever is also partially recessed to minimize snagging while still permitting easy access to select it when necessary. For sling attachment, the TR includes ambidextrous M-LOK® slots on each side of rear of the stock that function as a footman's loop or a space to attach M-LOK QD Sling Mounts. NEW TRIGGER RELEASE SLIDER MECHANISM Ambidextrous sliding, textured, low-profile control trigger pulls double duty as a simple one-handed LOP adjustment lever, as well as allows for toolless installation and removal. EASY INSTALLATION A takedown lever on the bottom of the stock permits full retraction of the trigger so the stock can slide on and off the receiver extension with minimal effort. The takedown lever's position is indicated with a padlock icon showing the trigger's status for installation or LOP adjustment. MINIMALIST, LIGHTWEIGHT DESIGN One of the lightest MOE stocks created at only 8.0 ounces. CUSTOMIZABLE Compatible with Magpul ASAP®, ASAP® QD and other receiver-mount sling attachments. Rear ambidextrous M-LOK® slots function as a footman's loop for direct sling attachment, and can also accept optional M-LOK QD Sling Mounts for push-button swivels. Compatible with MOE SL® Enhanced Rubber Butt-Pad, 0.70" for additional LOP. SPECIFICATIONS: Platform - AR10, AR15, M4, M16, M110, SR25 Compatibility - Mil-Spec sized carbine receiver extension tube (not included) from manufacturers such as Colt, LMT, Ruger, S&W, SIG, and others* LOP, M4 Collapsed - ~10.5 in. LOP, M4 Extended - ~13.8 in. LOP Adjustment Range - 3.3 in. Length, max - 7.0 in. Height, max - 5.3 in. Weight - 8.0 oz. Weight, w/ receiver extension - ~11.8 oz. Width, max - 1.6 in.

MOE TR MILSPEC CARBINE STOCK SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the MOE TR MILSPEC Carbine Stock by Magpul. This guide provides essential safety instructions and guidelines to ensure safe usage of the product. Please read this document carefully before installation and use to avoid potential hazards.

General Safety Guidelines

- Ensure the product is compatible with your firearm before installation.
- Always handle firearms safely and responsibly.
- Store the stock in a secure location away from children and unauthorized users.
- Regularly inspect the stock for signs of wear or damage.
- Do not exceed the recommended weight limits when using additional attachments.
- Report any unsafe product issues or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Installation Precautions:**
 - Always ensure the firearm is unloaded before installing or removing the stock.
 - Use only the recommended tools for installation to avoid damaging the stock or firearm.
- **Usage Precautions:**
 - Ensure the takedown lever is securely locked in place before use.
 - Avoid using the stock if any components are damaged or missing.
 - Be cautious when making Length of Pull (LOP) adjustments to avoid pinching fingers.
- **Sling Attachment:**
 - Only use compatible MLOK attachments as specified in the product guidelines.
 - Ensure sling attachments are securely fastened before use to prevent accidental detachment.

Instructions for Installation and Usage

1. Installation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Locate the receiver extension tube on your firearm.
- Align the MOE TR stock with the receiver extension tube.
- Press the takedown lever to the unlocked position.
- Slide the stock onto the receiver extension tube until it is fully seated.
- Move the takedown lever to the locked position; verify it is secure by attempting to pull the stock off the receiver.
- Check the padlock icon to confirm the stock is locked.

2. Usage:

- To adjust the Length of Pull (LOP), slide the ambidextrous trigger release lever with one hand while holding the stock.
- Make adjustments gradually and check for secure locking after each adjustment.
- Use the MLOK slots to attach slings as needed, ensuring they are secure.

3. Removal:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Press the takedown lever to the unlocked position.
- Slide the stock off the receiver extension tube.
- Store the stock in a safe location when not in use.

Disposal Instructions

- Dispose of the stock in accordance with local regulations for plastic waste.
- Do not burn the stock, as it may release harmful substances.
- If the product is damaged beyond repair, consider recycling options if available.
