

DAKA® GRID ORGANIZER FOR PELICAN™ V700 VAULT - MAGPUL

DAKA GRID ORGANIZER FOR PELICAN V700 VAULT

[Shooting Accessories](#) > [Gun Storage](#) > [Gun Storage Accessories](#)

Magpul's DAKA GRID Organizer is a fully customizable drop-in organizational solution that secures and protects your important equipment when it's stored or transported in your existing hard case. Specifically designed to fit Pelican™ V700 Vault gun cases, the GRID Organizer is completely reconfigurable to meet your storage needs. Individual Expanded Polypropylene (EPP) Panels and Blocks nest together securely to maximize protection, versatility, and ease-of-use. They can be organized to brace and immobilize rifles, optics, ammunition, accessories, and other gear, and they can be quickly removed and reinstalled for your next loadout. The lightweight GRID system uses compression to immobilize and compartmentalize your gear, firmly holding it in place and providing advanced protection during transport. The result is less movement and better impact resistance for your gear than you'll get from current open cell foam options that can let your gear slide around inside your case during transport. Also, the GRID's EPP make up doesn't absorb contaminants like open cell foam does, providing resistance to liquid and chemical intrusion and mitigating contamination of your gear. Cleaning up dirt, chemicals, and liquids is easy with just a damp cloth. Offering numerous advantages over traditional foam and expensive laser-cut inserts, the GRID provides intuitive, modular organization at your fingertips. It's reconfigurable without tools, so it can be adapted to your loadout in seconds. If you're carrying wider or taller equipment, a center GRID Panel can also be removed to open up space for objects approximately 4.25" inches wide. If you end up needing to cut a Panel to create a unique cavity for wider gear, the EPP cuts smoothly and doesn't lose its strength or ability to protect your important equipment. For unique equipment loading techniques, see Magpul's Getting The Best Fit video and others in the Resources tab. Simple to configure, stronger than foam, and versatile enough to change with every loadout, the DAKA GRID Organizer lets you use every inch of your case to store and securely carry your gear the way you want. Includes GRID base Panels, six triple Blocks, six double Blocks, and replacement base foam. EASILY ADDED TO POPULAR PELICAN™ V700 VAULT CASES EPP Panels and Blocks quickly replace current internal setup GRID system holds your gear securely and protects better than foam sheets Not just for firearms; can be used for all types of gear LIGHTWEIGHT AND EASY TO USE EPP construction is lighter and stronger than traditional foam Endlessly customizable and no tools required Unique gear loadouts set up in seconds BETTER PROTECTION THAN YOUR OLD FOAM GRID is stronger than open cell foam, holds your gear in place, and protects better from impacts Resists absorbing liquids and chemicals and easy to clean with a damp cloth Good temperature stability VERSATILE AND ENDLESSLY CUSTOMIZABLE GRID Block arrangement lets you maximize the use of all of your space Ability to reconfigure the GRID means no cutting or plucking of foam that leaves you with one fixed configuration

DAKA® GRID Organizer for Pelican V700 Vault

Safety Instruction Guide

Introduction

Thank you for choosing the DAKA GRID Organizer for your Pelican V700 Vault. This product is designed to provide a customizable and secure storage solution for your gear. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Ensure that the DAKA GRID Organizer is used only for its intended purpose as specified in this guide.
- Regularly inspect the GRID Organizer for any signs of wear or damage. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals to prevent accidents.
- Always follow local regulations regarding the storage and transportation of firearms and related equipment.
- Report any unsafe product incidents or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper installation or usage may lead to equipment damage or personal injury.
- Failure to secure gear properly may result in movement during transport, leading to potential impacts.

- **Avoiding Hazards:**

- Ensure that all EPP Panels and Blocks are securely nested and locked into place before transporting.
- Do not overload the GRID Organizer beyond its intended capacity.
- Avoid using sharp objects to cut or modify the EPP Panels, as this can compromise their integrity.
- Keep the GRID Organizer away from extreme heat sources to prevent deformation of the EPP material.

- **AgeSpecific Warnings:**

- This product is not intended for use by children without adult supervision.
- Ensure that children are educated about the importance of safe storage and handling of firearms and related gear.

Instructions for Installation and Usage

1. Installation:

- Open your Pelican V700 Vault case and remove any existing internal setup.
- Place the GRID base Panels into the case, ensuring they fit securely in the designated areas.
- Insert the triple and double Blocks as needed to create compartments for your gear.
- Adjust the arrangement of the Blocks to suit your specific loadout requirements.

2. Usage:

- Load your gear into the GRID Organizer, ensuring that all items are properly secured.

- Use the compression feature of the GRID system to immobilize your gear, preventing movement during transport.
- If you need to create a unique cavity for wider equipment, you may cut the EPP Panels; ensure to do so carefully to maintain their protective qualities.
- After loading, close the Pelican V700 Vault case securely.

Disposal Instructions

- Dispose of the DAKA GRID Organizer responsibly, following local regulations for EPP material.
- Do not incinerate the EPP Panels or Blocks, as they may release harmful substances when burned.
- If possible, recycle the EPP material through appropriate recycling programs in your area.

Contact Information for Further Support

For any questions or concerns regarding the DAKA GRID Organizer, please refer to the manufacturer's website or contact their customer support team. Ensure you have your product details ready for a more efficient response.

Thank you for your attention to these safety guidelines. Enjoy using your DAKA GRID Organizer for Pelican V700 Vault safely and effectively!
