

MEDIUM STRENGTH BLUE THREADLOCKER - BROWNELLS MEDIUM STRENGTH BLUE THREADLOCKER 10ML BOTTLE

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Thread Locking Liquids](#)

MEDIUM STRENGTH BLUE THREADLOCKER The Brownells Medium Strength Blue Threadlocker is a reliable adhesive designed to prevent threaded fasteners from loosening due to shock and vibration. This medium-hold threadlocker is ideal for applications where disassembly with standard hand tools is desired, providing a secure bond while allowing for future maintenance. **Key Features:** **Medium Strength:** Offers sufficient holding power to secure fasteners, yet permits disassembly with standard hand tools when necessary. **Vibration Resistance:** Effectively prevents loosening of metal thread engagements subjected to shock and vibration, ensuring the integrity of assemblies. **User-Friendly Application:** Cures through the evaporation of water, simplifying the bonding process without the need for specialized equipment. **Specifications:** **Container Sizes:** Available in 1.8 ml and 10 ml tubes, accommodating both small-scale and more extensive applications. **Color:** Blue, allowing for easy identification during application and inspection. **Application Instructions:** **Surface Preparation:** Ensure that parts are clean, dry, and free from oil or grease to promote optimal adhesion. **Application:** Apply the threadlocker to the threads, covering a length approximately 1.5 times the diameter of the part. **Assembly:** Assemble parts and tighten as required. **Curing:** Allow the product to cure through the evaporation of water to build strength. **Curing Time and Performance Temperature Range:** Fixture Time: 15 - 20 minutes @ 72° F / 22° C Full Cure Time: 24 Hours @ 72° F / 22° C **Temperature Range:** -60° F to 300° F / -51° C to 150° C Incorporating the Brownells Medium Strength Blue Threadlocker into your assembly process ensures that threaded components remain secure under operational stresses, enhancing the reliability and longevity of your equipment.

Attributes

- Name: [BROWNELLS MEDIUM STRENGTH BLUE THREADLOCKER 10ML BOTTLE](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 430110335
- Mfr. No.: 12110BROWN
- Colour: Clear
- Size: 10 mL
- Delivery weight: 0.045kg
- Shipping height: 89mm
- Shipping width: 29mm
- Shipping length: 29mm
- UPC: 050806001329

Safety Instruction Guide for Brownells Medium Strength Blue Threadlocker

Introduction

Thank you for choosing the Brownells Medium Strength Blue Threadlocker. This product is designed to provide a secure bond for threaded fasteners while allowing for easy disassembly when necessary. To ensure safe and effective use, please read and follow the guidelines outlined in this safety instruction guide.

General Safety Guidelines

- Always ensure that you are using the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Ensure proper ventilation when using this product to avoid inhalation of fumes.
- Avoid contact with skin and eyes. In case of contact, rinse thoroughly with water and seek medical attention if necessary.
- Do not ingest. If swallowed, seek medical help immediately.
- Store the product in a cool, dry place away from direct sunlight and heat sources.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Skin and Eye Irritant: May cause irritation upon contact.
 - Inhalation Hazard: Fumes may be harmful if inhaled in large quantities.
 - Flammability: Keep away from open flames and high temperatures.
- **Avoiding Hazards:**
 - Wear protective gloves and safety goggles when handling the product.
 - Use in a wellventilated area to minimize inhalation risks.
 - Do not mix with other chemicals unless specified by the manufacturer.

Instructions for Installation and Usage

- **Surface Preparation:**
 - Ensure that all parts are clean, dry, and free from oil or grease.
 - Use a suitable cleaning agent if necessary to prepare the surfaces.
- **Application:**
 - Apply the threadlocker to the threads, covering a length approximately 1.5 times the diameter of the part.
 - Avoid overapplying, as excess product may lead to difficulty in disassembly.
- **Assembly:**
 - Assemble the parts and tighten them as required.
 - Ensure that the components are properly aligned before tightening.
- **Curing:**

- Allow the product to cure through the evaporation of water.
- Curing Time:
- Fixture Time: 15 20 minutes at 72° F / 22° C
- Full Cure Time: 24 hours at 72° F / 22° C
- Ensure that the temperature range during curing is between 60° F to 300° F / 51° C to 150° C for optimal performance.

Disposal Instructions

- Dispose of any unused product and empty containers in accordance with local regulations.
- Do not pour the product down the drain or dispose of it in regular household waste.
- Check with local waste management authorities for specific disposal guidelines.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of this product, please refer to the manufacturer's contact information provided on the product packaging or official website.

By following these guidelines, you can ensure the safe and effective use of the Brownells Medium Strength Blue Threadlocker, enhancing the reliability and longevity of your equipment. Always prioritize safety and adhere to the instructions provided.
