

MEDIUM STRENGTH BLUE THREADLOCKER - BROWNELLS MEDIUM STRENGTH BLUE THREADLOCKER 1.8ML BOTTLE

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Thread Locking Liquids](#)

MEDIUM STRENGTH BLUE THREADLOCKER The Brownells Medium Strength Blue Threadlocker is a reliable adhesive designed to prevent threaded fasteners from loosening due to shock and vibration. This medium-hold threadlocker is ideal for applications where disassembly with standard hand tools is desired, providing a secure bond while allowing for future maintenance. **Key Features:** **Medium Strength:** Offers sufficient holding power to secure fasteners, yet permits disassembly with standard hand tools when necessary. **Vibration Resistance:** Effectively prevents loosening of metal thread engagements subjected to shock and vibration, ensuring the integrity of assemblies. **User-Friendly Application:** Cures through the evaporation of water, simplifying the bonding process without the need for specialized equipment. **Specifications:** **Container Sizes:** Available in 1.8 ml and 10 ml tubes, accommodating both small-scale and more extensive applications. **Color:** Blue, allowing for easy identification during application and inspection. **Application Instructions:** **Surface Preparation:** Ensure that parts are clean, dry, and free from oil or grease to promote optimal adhesion. **Application:** Apply the threadlocker to the threads, covering a length approximately 1.5 times the diameter of the part. **Assembly:** Assemble parts and tighten as required. **Curing:** Allow the product to cure through the evaporation of water to build strength. **Curing Time and Performance Temperature Range:** Fixture Time: 15 - 20 minutes @ 72° F / 22° C Full Cure Time: 24 Hours @ 72° F / 22° C **Temperature Range:** -60° F to 300° F / -51° C to 150° C Incorporating the Brownells Medium Strength Blue Threadlocker into your assembly process ensures that threaded components remain secure under operational stresses, enhancing the reliability and longevity of your equipment.

Attributes

- Name: [BROWNELLS MEDIUM STRENGTH BLUE THREADLOCKER 1.8ML BOTTLE](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 430110336
- Mfr. No.: 12102BROWN
- Colour: Blue
- Size: 1.8 mL
- Delivery weight: 0.045kg
- UPC: 050806001336

Safety Instruction Guide for Brownells Medium Strength Blue Threadlocker

Introduction

Welcome to the safety instruction guide for the Brownells Medium Strength Blue Threadlocker. This product is designed to enhance the reliability of threaded fasteners in various applications. It is important to follow these safety guidelines to ensure safe and effective use.

General Safety Guidelines

- Ensure safe use of the Brownells Medium Strength Blue Threadlocker by following these guidelines:
- Always read and understand the product label and safety data sheet before use.
- Keep the product out of reach of children and pets.
- Use the product only for its intended purpose as mentioned in the instructions.
- Check for recalls or safety alerts regarding this product on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Before using the threadlocker, ensure that the work area is wellventilated to avoid inhalation of vapors.
- Avoid contact with skin and eyes. In case of contact, rinse thoroughly with water and seek medical attention if irritation persists.
- Do not ingest the product. If swallowed, contact a medical professional immediately.
- Store the product in a cool, dry place, away from direct sunlight and heat sources.
- Dispose of any unused product or waste in accordance with local regulations.

Instructions for Installation and Usage

1. Surface Preparation

- Ensure that the surfaces to be bonded are clean, dry, and free from oil or grease.
- Use a suitable cleaning agent if necessary to prepare the surfaces.

2. Application

- Apply the threadlocker to the threads of the fastener, covering a length approximately 1.5 times the diameter of the part.
- Avoid overapplication, as this can lead to excess product squeezing out during assembly.

3. Assembly

- Assemble the parts and tighten as required to achieve the desired fit.
- Ensure that the fasteners are properly aligned before tightening.

4. Curing

- Allow the product to cure through the evaporation of water.
- Fixture time is approximately 15 20 minutes at 72° F / 22° C.
- Full cure time is 24 hours at the same temperature.

5. Temperature Considerations

- The product is effective within a temperature range of 60° F to 300° F / 51° C to 150° C.
- Ensure that the application environment falls within this temperature range for optimal

performance.

Disposal Instructions

- Dispose of any unused product in accordance with local waste management regulations.
- Do not pour the product down the drain or dispose of it in regular household waste.
- Contact local authorities or waste disposal services for guidance on safe disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of Brownells Medium Strength Blue Threadlocker, please refer to the product packaging or visit the manufacturer's website for additional information and support.

By following these safety instructions, you can ensure a safe and effective experience with the Brownells Medium Strength Blue Threadlocker. Thank you for choosing our product!
