

RIFLE PRO DIE PACKS - LYMAN PRO DIE PACK 300 PRC STAINLESS STEEL

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Lyman Pro dies will set a new standard for reloading die performance! Designed for the tremendous volume of our Mark 7 presses, every aspect of these precision dies was carefully engineered for top performance. Of course, they work great in regular progressive presses as well as turret and single station presses. Our first consideration was the material of the dies. Our size, seat and crimp dies are all made of stainless steel which was chosen for its toughness and anti-corrosion qualities. No more rusted dies! Lyman's sizing dies are equipped with highly polished carbide rings for the ultimate in wear resistance and reduced sizing force. In addition, the sizing dies are equipped with a springloaded decapping rod system to ensure that the primer is forcefully ejected from the primer pocket. Lyman's rifle sets get their famous M die neck expander, with its famous two step expander plug for just the right amount of neck tension and case mouth flare. The pistol sets include their flare die which are designed to allow bullets to properly sit on the case mouth prior to seating. Next is their Micrometer Seating die. This seating die has a micrometer adjustable seating head for precision bullet seating length. Its floating bullet seating punch centers the bullet on the case and eliminates excessive run-out. Finally, each set is equipped with a taper crimp die (micrometer adjustable) to fully remove any case mouth flare and to provide improved bullet retention. Lyman Pro dies offer more features at a better price than any competitive dies available!

Attributes

- Name: [LYMAN PRO DIE PACK 300 PRC STAINLESS STEEL](#)
- Manufacturer: [LYMAN](#)
- Product no.: 430110525
- Mfr. No.: 7701054
- Cartridge: 300 PRC
- Delivery weight: 1.361kg
- Shipping height: 51mm
- Shipping width: 178mm
- Shipping length: 216mm
- UPC: 011516710543

Safety Instruction Guide for Lyman Pro Die Pack 300 PRC Stainless Steel

Introduction

Thank you for choosing the Lyman Pro Die Pack 300 PRC Stainless Steel. This product is designed for precision reloading and is made from durable materials to ensure optimal performance. To ensure your safety and the effective use of this product, please read this guide carefully.

General Safety Guidelines

- Ensure that you read and understand all instructions before using the product.
- Use the product only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage.
- If you notice any defects, discontinue use immediately and contact the manufacturer.
- Always follow local regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Wear safety glasses to protect your eyes from debris during reloading.
- Use gloves to protect your hands from sharp edges and potential contaminants.
- Ensure that your reloading area is wellventilated to avoid inhaling any fumes or dust.
- Keep your workspace clean and organized to prevent accidents.
- Never leave the reloading process unattended.
- Be aware of your surroundings and ensure that no one is in close proximity while reloading.

Instructions for Installation and Usage

1. Installation of the Die Set:

- Ensure your reloading press is securely mounted.
- Select the appropriate die for your reloading process (sizing, seating, crimping).
- Follow the specific instructions included with each die for proper installation.

2. Using the Sizing Die:

- Insert the case into the sizing die.
- Use the press handle to apply consistent pressure until the case is fully sized.
- Check the case dimensions for accuracy.

3. Using the Seating Die:

- Place a bullet on the case mouth.
- Adjust the micrometer seating head to achieve the desired bullet seating depth.
- Use the press to seat the bullet into the case.

4. Using the Crimp Die:

- Adjust the taper crimp die to remove any case mouth flare.
- Ensure proper bullet retention by applying a consistent crimp.

5. Maintenance:

- Clean the dies regularly to prevent corrosion.
- Store the dies in a dry place to maintain their integrity.

Disposal Instructions

- Dispose of any damaged or wornout components in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Check with local authorities for proper disposal methods for metal and plastic components.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please consult the manufacturer's official website or customer service. Always ensure you have the product details on hand when seeking assistance.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities. Enjoy your reloading experience with the Lyman Pro Die Pack 300 PRC Stainless Steel!
