

# ULTIMATE POWDER HANDLING KIT

Whether you are new to reloading, or an experienced reloader looking to upgrade your equipment, the Ultimate Powder Handling Kit gives you all the performance and accuracy you will ever need. The set includes the Micro Touch 1500 Electronic Scale, the Brass Smith Powder Measure and Powder Measure Stand, the Brass Smith Adjustable Powder Trickler, E-ZEE Powder Funnel, and a full set of our Bleacher Loading Blocks. This complete kit provides all the powder handling equipment needed to produce top quality rifle or pistol ammunition.

**FEATURES:** Micro Touch 1500 Electronic Scale – Provides 1500 grain capacity, an easy-to-read digital display, auto shut-off, and touch screen controls. Operates with the included AC power adapter or three AAA batteries. Brass Smith Powder Trickler – The trickler has a static free die cast aluminum body and a height adjustable steel base for added weight and stability. It comes with a feed tube extension for additional length to work with any scale. Brass Smith Powder Measure – Whether dropping charges for small pistol cases or large rifle cases, this measure gives consistent and accurate performance. The measure features a micrometer style adjustment thimble, large and small drop tubes to fit a full range of calibers, and a powder baffle for a consistent powder level. The handle is also ambidextrous for right or left-handed use. Brass Smith Powder Measure Stand – This stand can be rigidly mounted to either a bench top or a wall and is tall enough to easily position the longest cases. It is made of tough die cast aluminum and features standard 7/8"x14 threads. Bleacher Loading Blocks – Bleacher Blocks feature a stepped design which makes it easier view and to pick up individual cases. An essential accessory to hold your cases when charged with powder, Bleacher Blocks are sized to closely fit a variety of cases and prevent cases from tipping over and spilling powder. Kit included rifle blocks with .388", .485" and .565" holes; plus pistol blocks with .445" and .565" holes.

## Attributes

- Name: ULTIMATE POWDER HANDLING KIT
- Manufacturer: LYMAN
- Product no.: 430110548
- Mfr. No.: 7810323
- Delivery weight: 4.536kg
- Shipping height: 394mm
- Shipping width: 229mm
- Shipping length: 343mm
- UPC: 011516703231

# Ultimate Powder Handling Kit Safety Instruction Guide

## Introduction

Thank you for choosing the Ultimate Powder Handling Kit. This kit is designed to enhance your reloading experience, ensuring safety and precision in ammunition production. This guide provides essential safety instructions and guidelines to help you use the kit effectively and responsibly.

## General Safety Guidelines

- Always read and understand all instructions before using the kit.
- Use the kit in a wellventilated area to avoid inhaling any powder particles.
- Keep the kit out of reach of children and pets to prevent accidental exposure.
- Ensure that all components are in good condition before use. Inspect for any damage or wear.
- Store all components securely and away from any sources of ignition.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- **Micro Touch 1500 Electronic Scale:**
  - Do not overload the scale beyond its 1500 grain capacity.
  - Avoid placing liquids or any foreign objects on the scale.
  - Ensure the scale is placed on a stable, flat surface to prevent tipping.
- **Brass Smith Powder Measure:**
  - Always check for proper calibration before use.
  - Avoid using the measure in damp or humid conditions.
  - Do not attempt to disassemble the powder measure while it contains powder.
- **Brass Smith Powder Trickler:**
  - Use the feed tube extension carefully to prevent spills.
  - Ensure that the trickler is stable and secure before use.
- **Bleacher Loading Blocks:**
  - Only use the blocks with compatible case sizes to prevent tipping.
  - Do not overload the blocks beyond their intended capacity.

## Instructions for Installation and Usage

### **1. Setting Up the Micro Touch 1500 Electronic Scale:**

- Place the scale on a flat, stable surface.
- Connect the AC power adapter or insert three AAA batteries.
- Turn on the scale and allow it to calibrate before use.

### **2. Using the Brass Smith Powder Measure:**

- Attach the measure to a stable surface using the provided stand.
- Adjust the micrometer thimble to set the desired charge.
- Use the large or small drop tubes based on your case size.

### **3. Operating the Brass Smith Powder Trickler:**

- Position the trickler next to the scale.
- Fill the trickler with powder and use the feed tube to dispense powder gradually.

### **4. Utilizing the Bleacher Loading Blocks:**

- Place the loading blocks on a stable surface.
- Insert cases into the blocks, ensuring they fit snugly.
- Use the blocks to hold cases while charging with powder.

## **Disposal Instructions**

- Dispose of any unused or expired powder according to local regulations.
- Recycle packaging materials where possible.
- Do not dispose of any components in regular household waste if they contain hazardous materials.

## **Contact Information for Further Support**

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with the Ultimate Powder Handling Kit. Thank you for your attention to safety.
