SNUB NOSE GRIP MODULE FOR SIG SAUER P365 Precision-Engineered Snub Nose: A replacement Sig Sauer P365 X-Macro Grip Module handle length but made for the Sig Sauer P365 X/XL slide, barrel, internals. No need to buy an X-Macro, just swap your existing parts to our Grip Module! Introduction:

Engineering in Compact Form Discover the epitome of engineering brilliance in a compact package: the Tyrant CNC Snub Nose SIG SAUER P365 Grip Module. Crafted through rigorous design cycles and exhaustive quality assessments, this grip module reimagines what compact efficiency should be. While we offer multiple configurations, including the X-Macro version, this Snub Nose version stands as a unique engineering achievement in the SIG SAUER P365 landscape. With just this Grip Module for the SIG P365 you will be able to transfer all your existing 365 FCU + components to create a true 17 round X-Macro carrying P365 with a 3.1" barrel and slide. All while being able to utilize your existing holster for the ultimate in cross compatibility. An Iterative

Triumph: The Path to Reliability Behind each Snub Nose grip module lies an intricate process of iterative engineering. Tyrant's dedicated team of engineers scrutinized every inch of the design, reworking it through multiple cycles to eliminate vulnerabilities and enhance operational strength. The result is a triumph of compact firearm engineering that stands in a class of its own. Homologation for Maximum Versatility What sets Tyrant's Snub Nose module apart is its carefully engineered homologation. While providing the extended handle length of the SIG SAUER P365 X-Macro, essential for the 17-round magazine, the barrel length stays true to the original P365's 3.1 inches. This ensures that the module is compatible with existing 3.1-inch holsters, offering a seamless transition without requiring additional accessories. Do you have the need for a slide safety? No problem, this grip module for the P365 allows for simple cut out, pre drafted, to be compatible with all Sig Sauer P365 manual safeties. Innovative Material Engineering: Compact Durability Utilizing a sophisticated blend of glass and carbon composites, the Snub Nose Grip Module achieves the paradox of being compact yet extraordinarily durable.

This balance is achieved by engineering away any potential failure points, creating a module that's both incredibly rigid and resistant to shattering or cracking. Ergonomic Excellence: A Grip that Adapts Intensive biomechanical research paved the way for Tyrant's Snub Nose version's optimized ergonomics. The module comes with engineered optional medium and large back straps, designed to conform to a multitude of hand sizes and shapes.

Even the texture—consisting of finely detailed 3D Tyrant logos—has been optimized for better grip and minimum hot spots. Summary: Choose Engineered Compactness ****Designed for Reliability:**** Each module undergoes rigorous engineering scrutiny for unmatched resilience. ****Homologated for Versatility:**** Ensures compatibility with 3.1-inch holsters, allowing for a seamless transition. ****Material Innovation:**** A proprietary blend of glass and carbon composites offers unparalleled durability. In a world where compact doesn't have to mean compromised, the Tyrant CNC Snub Nose SIG SAUER P365 Grip Module exemplifies the best in firearm engineering. It's not just about size; it's about efficiency, reliability, and performance. **FEATURES:** High grip undercut Trigger guard cut Medium length beavertail Variable depth texture to prevent hot spots Redesigned ergonomics for comfort during extended operation Medium and Large back straps included Hard use

approved proprietary composite material Works with manual safety (pre drafted) Works with all P365 Slides Fits existing 365, 365x, 365xl holsters

Attributes

- Name: [TYRANT CNC SNUB NOSE GRIP MODULE FOR SIG SAUER P365 GRAY](#)
- Manufacturer: [TYRANT CNC](#)
- Product no.: 430111986
- Mfr. No.: TD-P365GRM-SNUB-GREY
- Colour: Gray
- Material: Polymer
- Model: P365
- Style: Manual
- Surface: Textured
- Weapon type: Sig Sauer
- Delivery weight: 0.036kg
- Shipping height: 152mm
- Shipping width: 51mm
- Shipping length: 127mm
- UPC: 764046030956

Item details

Made in USA

US export classification: 0A501.y.1

Safety Instruction Guide for SNUB NOSE GRIP MODULE FOR SIG SAUER P365

Introduction

Thank you for choosing the Tyrant CNC Snub Nose Grip Module for your SIG SAUER P365. This guide provides essential safety instructions to ensure the safe use and installation of your product. Please read through this document carefully to avoid potential hazards and to maximize your experience with this grip module.

General Safety Guidelines

- Ensure that the grip module is compatible with your specific SIG SAUER P365 model before installation.
- Inspect the grip module for any visible damage or defects before use. Do not use if damaged.
- Keep the grip module out of reach of children and vulnerable individuals.
- Always follow the manufacturer's instructions for handling and using firearm accessories.
- Report any unsafe products or incidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Compatibility:** Ensure that the Snub Nose Grip Module is designed for the SIG SAUER P365 and is compatible with your existing components.
- **Installation:** Follow the installation instructions carefully to avoid improper fitting, which may affect safety and performance.
- **Manual Safety:** If your firearm includes a manual safety, ensure that the grip module is installed correctly and that the safety functions as intended.
- **Ergonomics:** Adjust the grip module to fit your hand size using the medium and large back straps provided. An improper fit may affect your grip and control.
- **Training:** Familiarize yourself with the grip module and practice safe handling of your firearm regularly.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools for installation, including a screwdriver if required.
- Ensure your firearm is unloaded and safe to handle.

2. Removing the Existing Grip Module:

- Carefully detach the existing grip module from your SIG SAUER P365 following the manufacturer's instructions.
- Set aside any components that will be reused.

3. Installing the Snub Nose Grip Module:

- Align the Snub Nose Grip Module with the firearm's frame.
- Ensure that all components fit securely without forcing them into place.
- If applicable, install the manual safety cutout as per the predrafted design.

4. Adjusting the Back Straps:

- Choose the appropriate back strap (medium or large) based on your hand size.
- Attach the selected back strap to the grip module, ensuring a secure fit.

5. Final Inspection:

- Inspect the installation to ensure everything is fitted correctly and securely.
- Check that the manual safety (if applicable) operates smoothly.

6. Usage:

- Once installed, practice safe handling and operation of your firearm with the new grip module.
- Regularly inspect the grip module for wear and tear.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the grip module is damaged beyond repair, follow local guidelines for the disposal of polymer materials.
- Do not dispose of the grip module in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding the safety or installation of your Snub Nose Grip Module, please refer to the manufacturer's website or customer service for assistance.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities. Enjoy your new grip module and the enhanced performance it brings to your SIG SAUER P365.
