

SNUB NOSE GRIP MODULE FOR SIG SAUER P365 FDE

SNUB NOSE GRIP MODULE FOR SIG SAUER P365 Precision-Engineered Snub Nose: A replacement Sig Sauer P365 X-Macro Grip Module handle length but made for the Sig Sauer P365 X/XL slide, barrel, internals. No need to buy an X-Macro, just swap your existing parts to our Grip Module! Introduction: Engineering in Compact Form Discover the epitome of engineering brilliance in a compact package: the Tyrant CNC Snub Nose SIG SAUER P365 Grip Module. Crafted through rigorous design cycles and exhaustive quality assessments, this grip module reimagines what compact efficiency should be. While we offer multiple configurations, including the X-Macro version, this Snub Nose version stands as a unique engineering achievement in the SIG SAUER P365 landscape. With just this Grip Module for the SIG P365 you will be able to transfer all your existing 365 FCU + components to create a true 17 round X-Macro carrying P365 with a 3.1" barrel and slide. All while being able to utilize your existing holster for the ultimate in cross compatibility. An Iterative Triumph: The Path to Reliability Behind each Snub Nose grip module lies an intricate process of iterative engineering. Tyrant's dedicated team of engineers scrutinized every inch of the design, reworking it through multiple cycles to eliminate vulnerabilities and enhance operational strength. The result is a triumph of compact firearm engineering that stands in a class of its own. Homologation for Maximum Versatility What sets Tyrant's Snub Nose module apart is its carefully engineered homologation. While providing the extended handle length of the SIG SAUER P365 X-Macro, essential for the 17-round magazine, the barrel length stays true to the original P365's 3.1 inches. This ensures that the module is compatible with existing 3.1-inch holsters, offering a seamless transition without requiring additional accessories. Do you have the need for a slide safety? No problem, this grip module for the P365 allows for simple cut out, pre drafted, to be compatible with all Sig Sauer P365 manual safeties. Innovative Material Engineering: Compact Durability Utilizing a sophisticated blend of glass and carbon composites, the Snub Nose Grip Module achieves the paradox of being compact yet extraordinarily durable. This balance is achieved by engineering away any potential failure points, creating a module that's both incredibly rigid and resistant to shattering or cracking. Ergonomic Excellence: A Grip that Adapts Intensive biomechanical research paved the way for Tyrant's Snub Nose version's optimized ergonomics. The module comes with engineered optional medium and large back straps, designed to conform to a multitude of hand sizes and shapes. Even the texture—consisting of finely detailed 3D Tyrant logos—has been optimized for better grip and minimum hot spots. Summary: Choose Engineered Compactness **Designed for Reliability:** Each module undergoes rigorous engineering scrutiny for unmatched resilience. **Homologated for Versatility:** Ensures compatibility with 3.1-inch holsters, allowing for a seamless transition. **Material Innovation:** A proprietary blend of glass and carbon composites offers unparalleled durability. In a world where compact doesn't have to mean compromised, the Tyrant CNC Snub Nose SIG SAUER P365 Grip Module exemplifies the best in firearm engineering. It's not just about size; it's about efficiency, reliability, and performance. FEATURES: High grip undercut Trigger guard cut Medium length beavertail Variable depth texture to prevent hot spots Redesigned ergonomics for comfort during extended operation Medium and Large back straps included Hard use approved proprietary composite material Works with manual safety (pre drafted) Works with all P365 Slides Fits existing 365, 365x, 365xl holsters
