

# **ZERO M-SERIES SIZING DIES - AREA 419 ZERO M-SERIES 22 CREEDMOOR SIZING DIE W/ZERO SHELL HOLDER**

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The ZERO M-Series Sizing die is the culmination of years of testing, research, trial, error, frustration, and finally, discoveries. As Reloaders, Area 419 knew they needed a die to do certain things, but as the makers of the ZERO Reloading Press, Area 419 also learned a huge amount about what other dies did well or did poorly, and what customers were struggling with on a daily basis. With the ZERO M-Series Sizing Die, Area 419 produced a sizing die that is capable of producing the finest, match-grade ammunition, as well as being user-friendly to new and learning reloaders. Sizing brass doesn't have to be complicated. It doesn't have to require years of trial and error. It just needs equipment, made with the end-user in mind, designed with the understanding that a die is part of an ecosystem of parts. A press, a die, the brass, the rifle - they all have to work together and be designed with one another in mind. This is that. Introducing, the ZERO M-Series Sizing Die. **KEY FEATURES** Micrometer Adjustable Headspace/Shoulder Bump Precision Ground Expander Mandrels (all dies ship with a .002 neck tension mandrel, or add more increments with Area 419's MANDREL KIT) Full-Length Neck to Extractor Sizing Spring Ejection for Spent Primers Replaceable Steel Decap Pins Reamer Cut to Exacting Dimensions for a TRUE Size (no more sticky bolt after the second firing) Hydraulic Shoulder Pressure Relief 100% Made in AMERICA All dies ship with an Area 419 ZERO Die Ring, a spare decapping pin and necessary install/removal tools. After testing them all, and finding everything Area 419 like and didn't like, and working with thousands of customers and a variety of industry partners, they believe this is what a sizing die should be. Area 419 think you'll agree. **NOTE: THIS IS A 1-1/4" DIE, AND REQUIRES A HYBRID OR 1-1/4" TURRET ON YOUR ZERO (OR OTHER PRESS). IT CANNOT BE USED WITH A 7/8" TURRET OR OTHER 7/8" PRESS.**

## **Attributes**

- Name: [AREA 419 ZERO M-SERIES 22 CREEDMOOR SIZING DIE W/ZERO SHELL HOLDER](#)
- Manufacturer: [AREA 419](#)

# ZERO MSERIES SIZING DIES SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing the ZERO MSeries Sizing Die from Area 419. This product is designed to help you create highquality, matchgrade ammunition with ease. To ensure your safety and the best performance from your die, please carefully read and follow these safety instructions.

## General Safety Guidelines

- Always handle reloading equipment with care and respect.
- Ensure that your workspace is clean, organized, and free of distractions.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Be aware of your surroundings and ensure that no one is in close proximity when using the die.
- Regularly inspect your die and related equipment for wear and damage.
- Use the die only for its intended purpose as specified in the product documentation.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Improper use of the die can lead to accidents, including injuries from sharp edges or moving parts.
  - There is a risk of ammunition malfunction if the die is not used correctly.
- **Avoiding Hazards:**
  - Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves.
  - Ensure that the die is securely mounted to the press before use.
  - Do not exceed the recommended specifications for the die, including cartridge type and press compatibility.
- **Age Restrictions:**
  - This product is intended for use by individuals aged 18 years and older. Ensure that younger individuals are supervised when using this product.

## Instructions for Installation and Usage

### • Installation:

1. Ensure your reloading press is compatible with the ZERO MSeries Sizing Die (11/4" die).
2. Securely mount the die in the press, ensuring that it is tightened according to the manufacturer's specifications.
3. Attach the ZERO Die Ring and ensure all components are properly aligned.

### • Usage:

1. Before starting, read the instructions thoroughly and ensure you have all necessary components.
2. Adjust the micrometer headspace/shoulder bump as needed for your specific cartridge.
3. Insert the brass casing into the die and operate the press according to the manufacturer's guidelines.
4. After sizing, remove the brass casing and inspect it for any signs of damage or improper sizing.
5. Dispose of any defective casings responsibly.

## Disposal Instructions

- Dispose of any defective or damaged dies according to local regulations for hazardous materials.
- Recycle packaging materials where applicable.
- Ensure that spent primers and other waste materials are disposed of in a safe and environmentally friendly manner.

## Contact Information for Further Support

For any safety inquiries, product support, or to report unsafe products, please refer to the appropriate authorities or safety platforms as per EU regulations.

## Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the ZERO MSeries Sizing Die. Always prioritize safety and proper usage to enjoy the benefits of this highquality reloading tool. Thank you for your attention to these important safety guidelines.
