

ZERO M-SERIES SIZING DIES - AREA 419 ZERO M-SERIES 7MM PRC SIZING DIE W/ZERO SHELL HOLDER

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The ZERO M-Series Sizing die is the culmination of years of testing, research, trial, error, frustration, and finally, discoveries. As Reloaders, Area 419 knew they needed a die to do certain things, but as the makers of the ZERO Reloading Press, Area 419 also learned a huge amount about what other dies did well or did poorly, and what customers were struggling with on a daily basis. With the ZERO M-Series Sizing Die, Area 419 produced a sizing die that is capable of producing the finest, match-grade ammunition, as well as being user-friendly to new and learning reloaders. Sizing brass doesn't have to be complicated. It doesn't have to require years of trial and error. It just needs equipment, made with the end-user in mind, designed with the understanding that a die is part of an ecosystem of parts. A press, a die, the brass, the rifle – they all have to work together and be designed with one another in mind. This is that. Introducing, the ZERO M-Series Sizing Die. KEY FEATURES Micrometer Adjustable Headspace/Shoulder Bump Precision Ground Expander Mandrels (all dies ship with a .002 neck tension mandrel, or add more increments with Area 419's MANDREL KIT) Full-Length Neck to Extractor Sizing Spring Ejection for Spent Primers Replaceable Steel Decap Pins Reamer Cut to Exacting Dimensions for a TRUE Size (no more sticky bolt after the second firing) Hydraulic Shoulder Pressure Relief 100% Made in AMERICA All dies ship with an Area 419 ZERO Die Ring, a spare decapping pin and necessary install/removal tools. After testing them all, and finding everything Area 419 like and didn't like, and working with thousands of customers and a variety of industry partners, they believe this is what a sizing die should be. Area 419 think you'll agree. NOTE: THIS IS A 1-1/4" DIE, AND REQUIRES A HYBRID OR 1-1/4" TURRET ON YOUR ZERO (OR OTHER PRESS). IT CANNOT BE USED WITH A 7/8" TURRET OR OTHER 7/8" PRESS.

Attributes

- Name: [AREA 419 ZERO M-SERIES 7MM PRC SIZING DIE W/ZERO SHELL HOLDER](#)
- Manufacturer: [AREA 419](#)
- Product no.: 430112729
- Mfr. No.: 419-ZERODIE-M7PRCSH
- Cartridge: 7mm PRC
- Die Style: Sizing Dies
- Delivery weight: 1.588kg
- Shipping height: 76mm
- Shipping width: 152mm
- Shipping length: 241mm
- UPC: 810080182264

ZERO MSeries Sizing Die Safety Instructions

Introduction

Thank you for choosing the ZERO MSeries Sizing Die. This product is designed to help you achieve the highest quality in ammunition reloading. Please read this safety instruction guide carefully to ensure safe and effective use of the die. Adhering to these guidelines will help you avoid potential hazards and ensure compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the ZERO MSeries Sizing Die is used only for its intended purpose of resizing brass for ammunition.
- Always use the die in conjunction with compatible equipment, specifically a 11/4" hybrid or turret press.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the die for signs of wear or damage before each use.
- Follow all applicable local, national, and international regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- **Micrometer Adjustable Headspace/Shoulder Bump:** Ensure that the headspace is adjusted correctly to avoid excessive resizing, which can lead to dangerous ammunition.
- **Precision Ground Expander Mandrels:** Use the correct mandrel size to maintain proper neck tension. Using an incorrect size can lead to ammunition failures.
- **Spring Ejection for Spent Primers:** Always ensure that the ejection mechanism is functioning correctly to prevent spent primers from causing injury.
- **Hydraulic Shoulder Pressure Relief:** Do not exceed the recommended pressure settings during resizing to prevent equipment failure.
- **Replaceable Steel Decap Pins:** Ensure that decap pins are in good condition and replaced as needed to avoid injury during use.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Install the ZERO MSeries Sizing Die into the press by following the manufacturer's instructions for your specific press model.
- Attach the ZERO Die Ring and ensure all components are tightened to avoid movement during operation.

2. Usage:

- Prepare your brass by cleaning and inspecting for damage.
- Adjust the headspace using the micrometer feature to your desired setting.
- Insert the brass into the die and operate the press according to the manufacturer's instructions.
- After resizing, check each case for proper sizing and inspect for any signs of damage.

3. PostUsage:

- Clean the die after each use to maintain optimal performance.
- Store the die in a dry, safe place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of the ZERO MSeries Sizing Die in accordance with local regulations regarding metal products.
- Do not dispose of the die in regular household waste if it is damaged or no longer functional. Check with local waste management for specific disposal guidelines.

Contact Information for Further Support

For any questions or concerns regarding the ZERO MSeries Sizing Die, please refer to the manufacturer's website or contact their customer support for assistance. It is essential to have a clear understanding of the product and its safe usage.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the ZERO MSeries Sizing Die. Always prioritize safety and compliance with local regulations to enjoy the best results in your ammunition reloading process. Thank you for your attention to these important safety guidelines.
