

ZERO UNIVERSAL DECAPPING DIE - AREA 419 ZERO UNIVERSAL DECAPPING DIE

[Reloading](#) > [Case Cleaning](#) > [Decapping Dies & Accessories](#)

ZERO UNIVERSAL DECAPPING DIE Primer drawback sucks. It's frustrating, and can cause all sorts of process inconveniences. So, let's get them the heck out of the way. The Area 419 ZERO Universal Decapper (Universal because it'll work with any common press, or any common cartridge) has a spring loaded decapping pin, with replaceable heads, so you can send primers straight to hell the trash bin with no headaches, no drawback, and a satisfying "ping". The body of the die is aluminum, with all of the moving parts being of steel construction. This die will work with cases up to and including 338 Lapua length/diameter with no need for different inserts, and is compatible with any common press or shellholder. NOTE: Not for use with cartridges 20 cal or smaller.

ZERO UNIVERSAL DECAPPING DIE Safety Instructions

Introduction

Thank you for choosing the Area 419 ZERO Universal Decapping Die. This product is designed to provide a safe and efficient way to decap spent primers from cartridge cases. Please read this safety instruction guide carefully to ensure safe usage and to understand the necessary precautions.

General Safety Guidelines

- Ensure that you are using the decapping die in accordance with the instructions provided in this manual.
- Always wear appropriate safety gear, including safety glasses, when operating the decapping die.
- Keep the work area clean and free from distractions to prevent accidents.
- Only use the decapping die with compatible cartridge cases as specified in the product description.
- Store the decapping die in a safe place, out of reach of children and pets.
- Regularly inspect the die for any signs of wear or damage before each use.

Specific Safety Precautions for Use

- Do not attempt to decap cartridges that are smaller than 20 caliber, as this may cause injury or damage to the die.
- Ensure that the die is securely mounted on the press before use to avoid accidents.
- Keep hands and body clear of the die while operating to prevent injury.
- If the decapping pin becomes stuck or does not operate smoothly, cease use immediately and inspect for blockages or damage.
- Never use excessive force when operating the decapping die; if it feels stuck, stop and check for issues.
- Dispose of spent primers and any debris in accordance with local regulations.

Instructions for Installation and Usage

1. Installation

- Ensure that your reloading press is compatible with the Area 419 ZERO Universal Decapping Die.
- Securely attach the die to the press according to the manufacturer's instructions.
- Adjust the die to the appropriate height for the cartridge cases you will be using.

2. Usage

- Place the cartridge case into the shell holder of your press.
- Slowly raise the ram to engage the decapping pin with the primer.
- Once the primer is removed, lower the ram to complete the process.
- Inspect the cartridge case for any damage after decapping.

Disposal Instructions

- Follow local regulations for the disposal of spent primers and any materials associated with the decapping process.
- Do not dispose of spent primers in regular household waste; instead, use designated hazardous waste disposal methods where applicable.

Contact Information for Further Support

For any inquiries related to safety or product issues, please reach out to the designated contact point provided with your product packaging.

By following these safety instructions, you can ensure a safe and effective experience with the Area 419 ZERO Universal Decapping Die. Thank you for your attention to safety.
