

TACTICAL MID-CANTILEVERED 1-PIECE SCOPE MOUNTS - TACTICAL MID CANTILEVER 35MM DIA 34MM HEIGHT 20 MOA PIC MNT

TACTICAL MID CANTILEVERED 1-PIECE SCOPE MOUNTS When Area 419 set out to make the perfect scope mount, they knew what they needed to make something that was reliable and consistent at a degree you won't find anywhere else on the market. This led us down a rabbit-hole, ultimately arriving on a process that gets you final-bore matched rings, with raw aluminum internals, for a grip on your optic that is more reliable and more true than anything else made – as well as an incredible amount of robustness without adding unnecessary weight. Like most mounts, these begin as separate parts. Area 419 are making the bases and caps in batches. While many will make these parts, send them to anodize, and then just assemble, they produce around the extra steps. Once these parts return from anodize, they are fully assembled, placed back into specially produced rail fixtures, with the caps torqued to spec over specially made spacers (to give the rings space to torque down on the optic), and final-bored as sets in Area 419's world-class machining centers. Mounts are then brought off the machine in sets, QC'd and packaged, ensuring that you receive a mount that was finished perfectly. Is it overkill? Probably. But Area 419 think it's the right way. So that's what they are going to do. NOTE: All 1.34" (34mm) height mounts are a mid-cantilever, meant for less offset and use on bolt-action platforms. KEY FEATURES CNC Milled in America from American 7075 Aluminum Raw aluminum, precision bored scope contact surfaces for maximum grip Final-bored in sets, and never fully disassembled after boring 8-9oz per mount, depending on model, balancing weight management and robustness Multiple accessory mounting points Separate rail clamping bars for maximum grab on the pic rail Inset clamping feet, allowing for maximum mounting adjustment and pic rail utility Steel guide pins between base and caps, aiding in alignment Custom nitrided stainless hardware

Attributes

- Name: TACTICAL MID CANTILEVER 35MM DIA 34MM HEIGHT 20 MOA PIC MNT
- Manufacturer: AREA 419
- Product no.: 430112797
- Mfr. No.: 419-MCM-353420
- Elevation: 20 MOA
- Finish: Black
- Height: 5"
- Length: 2"
- Scope Tube Diameter: 35mm
- Style: Picatinny
- Delivery weight: 0.68kg
- Shipping height: 76mm
- Shipping width: 152mm
- Shipping length: 241mm
- UPC: 810080183254

Safety Instruction Guide for TACTICAL MIDCANTILEVERED 1PIECE SCOPE MOUNTS

Introduction

Thank you for choosing the TACTICAL MIDCANTILEVERED 1PIECE SCOPE MOUNTS by Area 419. This guide provides essential safety information and instructions to ensure the safe and effective use of your scope mounts. Please read this guide carefully before installation and use.

General Safety Guidelines

- Ensure that the product is suitable for your specific firearm and scope type.
- Always handle firearms and accessories with care and follow all standard safety practices.
- Regularly inspect the scope mounts for any signs of wear or damage before use.
- Store the scope mounts in a dry, safe place away from direct sunlight and moisture.
- Keep the product out of reach of children and unauthorized users.

Specific Safety Precautions for Use

- Do not exceed the recommended torque specifications when installing the scope mounts to avoid damage.
- Ensure that the scope is properly seated in the rings before use to prevent shifting during operation.
- Avoid using the scope mounts with incompatible or excessively heavy scopes that could compromise safety.
- Be aware of the mounting height and ensure it does not interfere with the operation of the firearm.
- If you notice any unusual sounds or movements during use, stop immediately and inspect the mounts.

Instructions for Installation and Usage

Installation

1. **Preparation:** Gather all necessary tools, including a torque wrench and appropriate screwdrivers.
2. **Clean the Surface:** Ensure that the picatinny rail on your firearm is clean and free of debris.
3. **Position the Mounts:** Place the scope mounts onto the picatinny rail in the desired position.
4. **Align the Rings:** Ensure that the rings are aligned with the scope tube and that they grip the scope securely.
5. **Torque Specifications:**
 - Use a torque wrench to tighten the mounting screws to the manufacturer's specifications.
 - Recommended torque: [Insert torque specification here].
6. **Final Check:** Doublecheck the alignment and tightness of all screws before use.

Usage

- Once installed, check the scope's alignment and ensure it is securely mounted.
- Regularly inspect the mounts during use and after significant shooting sessions.
- Make adjustments as necessary, ensuring that the mounts remain secure.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of in general household waste.
- Consider recycling materials where possible.

Contact Information for Further Support

For safety inquiries or additional support, please contact your local Area 419 representative or visit our website for more information.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and enjoyable experience with your TACTICAL MIDCANTILEVERED 1PIECE SCOPE MOUNTS. Always prioritize safety and handle your equipment responsibly. Thank you for your attention and safe shooting!
