

ULTIMATE TURRET PRESS KIT - LEE PRECISION ULTIMATE TURRET PRESS KIT 9MM LUGER

[Reloading](#) > [Reloading Kits](#)

ULTIMATE TURRET PRESS KIT The Ultimate Turret press retains the powerful Big Press linkage and circumferential tool head support. Perimeter support sets all Lee turret press apart from others. Through ram primer disposal keeps grit and grime away from the massive steel base and ram. The Ultimate replaces features changeable tool carrier available in three, four, five and six die positions. The tool carrier is precision machined on all surfaces and closely fitted to the steel support ring that surrounds the indexable tool head, having just enough clearance to allow free indexing and enough radial clearance to allow perfect die alignment. Perimeter support eliminates any die tipping and provides the best possible accuracy. Each die position is a quick change, provided by the Lee Breech lock system. Now you can remove your dies and store them in your fitted die box without disturbing the settings. Tool carrier can be quickly changed by removing three alloy steel socket head bolts, wrench included. Every downstroke of the press automatically advances the carrier to the next tool position. The new index mechanism has only one moving part and is overload protected making it nearly indestructible. Should it become damaged the drive clutch can be replaced in seconds without tools. The final and exact positioning of the tool head is provided by a shot pin attached to the ram. The Ultimate now includes a case ejector to whisk away your finished round to the included bin. No adjustments are required, and the ejector is unbreakable. The Big Press all-steel compound toggle linkage found on our 50 BMG reloading press sizes the most difficult cases with ease, with sufficient stroke to load the longest magnum cartridges. Ergonomics are excellent with the formed lever and roller handle. The balanced lever design is easy to operate and will not drop and pinch a finger. The finishing touch, a tool rack surrounding the steel tool carrier holds die wrench, ¼ hex wrench, alternate primer arm and Safety Prime. **FEATURES:** Five stations allow any brand of die be used -- inline bullet feed dies, powder check dies and such. Simple and reliable automatic indexing -- no tools required and never requires adjustment. Stroke and clearance sufficient for largest magnum rifle cases. Uses the same all steel linkage found on our Classic Cast 50 BMG press. Spent primer tube collects dirty, gritty spent primers. All dies securely fastened in the 5-hole turret with Lee Smart Lock bushings. Safety Prime system - simple, reliable and safe with any brand or size of primer. Cartridge changeover in seconds, including primer size with no adjustments. Automatic case ejector reliably whisks away your completed round to the included ammo bin. Press includes combination tool rack, bin bracket, along with free ammo bin. **SECIFICATIONS:** Maximum cartridge overall length: 3" automatic index | 4" manual index Base material: Steel Columns material: Steel Ram: Steel Ram diameter: Over 1" Linkage: Steel Tool head material: Steel Die size accepted: 7/8" x 14 Number of die mounting holes : 5 Breech Lock Quick Change bushings: Yes, 5 included Priming feature: Yes, no primer brand restrictions Spent primer collection tube: Yes Country of origin: Proudly made in USA

ULTIMATE TURRET PRESS KIT Safety Instruction Guide

Introduction

Thank you for choosing the ULTIMATE TURRET PRESS KIT by LEE PRECISION. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the press kit.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the press kit out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, including eye protection, when operating the press.
- Inspect the press kit for any damage before use. Do not use if damaged.
- Follow all instructions for installation and usage to avoid accidents.
- Be aware of your surroundings and ensure the workspace is clear of hazards.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Avoid Pinching:** Be cautious when operating the lever to prevent pinching fingers.
- **Secure All Components:** Ensure that all dies are securely fastened in the turret before operation.
- **Use Only Approved Materials:** Only use dies and components that are compatible with the ULTIMATE TURRET PRESS KIT.
- **Proper Handling of Primers:** Follow the manufacturer's instructions for handling and storing primers safely.
- **No Modifications:** Do not modify the press kit or use it in any way that is not described in this manual.
- **Stay Alert:** Do not operate the press while under the influence of drugs, alcohol, or while fatigued.

Instructions for Installation and Usage

1. Setup:

- Place the press kit on a stable, flat surface.
- Ensure that the base is securely anchored to prevent movement during operation.

2. Installation of Tool Carrier:

- Remove the three alloy steel socket head bolts using the included wrench.
- Attach the tool carrier to the steel support ring, ensuring a snug fit.
- Reinsert and tighten the three bolts to secure the tool carrier.

3. Die Installation:

- Select the appropriate die for your reloading needs.
- Insert the die into the turret and secure it using the Lee Smart Lock bushings.
- Repeat for all desired die positions.

4. Using the Press:

- Insert a case into the tool head.
- Pull the lever down to perform the operation (sizing, priming, etc.).

- Each downstroke will automatically advance to the next tool position.
- Use the automatic case ejector to remove completed rounds into the bin.

5. Maintenance:

- Regularly clean the press kit to remove any dirt or debris.
- Inspect all components for wear and replace if necessary.

Disposal Instructions

- Dispose of any nonfunctional or damaged components in accordance with local regulations.
- Do not dispose of spent primers or hazardous materials in regular household waste.
- Check with local waste management for proper disposal methods for reloading materials.

Contact Information for Further Support

For inquiries regarding safety or product support, please refer to the contact details provided with your product packaging or visit the manufacturer's website.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective reloading experience with your ULTIMATE TURRET PRESS KIT.
