

NANUK 935 PROTECTIVE HARD CASE - NANUK 935 HARD PROTECTIVE CASE WITH FOAM, BLACK

NANUK 935 PROTECTIVE HARD CASE If you were designing the perfect waterproof, protective case that can go anywhere and do anything we bet that you would start with the NANUK 935. Three soft-grip handles make this wheeled case one of the most convenient on the market, but that's only the beginning. Polyurethane wheels withstand rough terrain while the one-handed retractable handle makes it easy to use and versatile. No matter where you're headed, you're guaranteed a smooth and hassle-free trip. Built to organize, protect, carry and survive tough conditions, the NANUK 935 waterproof hard case will take the abuse, so your gear doesn't. It's impenetrable and indestructible with a lightweight, tough NK-7 resin shell and its PowerClaw superior latching system gives you unmatched peace of mind. With NANUK's exclusive locking and latching system, your case stays shut and secured until you are ready to open it. Measuring 22x14x9" it can store a whole lot of essential gear and still be carried on most airlines. The NANUK 935 protective case is convenient even when full of equipment and weighed down. Simply press the button and the retractable handle extends to your choice of two positions and the NANUK 935 is ready to be wheeled to your destination with your photo gear, video gear, audio gear, medical equipment, industrial equipment, outdoor gear, personal effects and much more safely inside. The 935's two handles feature stainless steel hardware and cleverly retract to keep the handles out of harm's way when traveling or during shipping. This transport case is also equipped with an automatic pressure release valve and an integrated bezel system to accommodate custom panels without needing to drill holes, so the case stays watertight. This MIL-Spec injection molded case is backed by a lifetime warranty. NANUK 935 Protective Hard Case Safety Instruction Guide

Introduction

Thank you for choosing the NANUK 935 Protective Hard Case. This guide provides essential safety instructions to ensure the safe use of your hard case. Please read this document carefully to understand how to use, maintain, and dispose of the product properly.

General Safety Guidelines

- Ensure that the NANUK 935 Protective Hard Case is used only for its intended purpose: to store and transport equipment safely.
- Inspect the case regularly for any signs of damage or wear. Do not use the case if it is damaged.
- Keep the case away from extreme temperatures and direct sunlight to prevent material degradation.
- Always close and secure the case properly before transporting to prevent accidental opening and loss of contents.
- Be cautious when handling the case when it is full, as it may be heavy. Use both hands when lifting.
- Keep the case away from children. This product is not a toy and should not be used by children without adult supervision.

Specific Safety Precautions for Use

- **Weight Limit:** Do not exceed the maximum buoyancy limit of 58 lb (26.4 kg) to ensure safe handling and transport.
- **Temperature Exposure:** Avoid exposing the case to temperatures below 20°F (29°C) or above 140°F (60°C) to maintain the integrity of the materials.
- **Pressure Release Valve:** Ensure the automatic pressure release valve is functioning correctly, especially when traveling to different altitudes.
- **Locking Mechanism:** Always engage the PowerClaw superior latching system to secure the case. Ensure it is locked before moving.
- **Moisture Protection:** Check the watertight seal regularly to ensure that it is intact, especially if the case has been exposed to water or moisture.
- **Custom Panels:** If using custom panels, ensure they are compatible and do not compromise the watertight integrity of the case.

Instructions for Installation and Usage

1. Opening the Case:

- To open the case, disengage the PowerClaw latches by pulling them outward.
- Lift the lid carefully to avoid damaging the hinges.

2. Loading Equipment:

- Place your equipment inside the case, ensuring it is well organized and secured.
- Use foam inserts if necessary to provide additional cushioning and protection.

3. Closing the Case:

- Close the lid firmly and engage the PowerClaw latches on both sides to secure the case.
- Ensure that the handles are retracted to prevent any damage during transport.

4. Transporting the Case:

- Use the retractable handle for easy maneuverability. Press the button to extend the handle to your desired height.
- When wheeling the case, ensure that the wheels are free from debris to prevent obstruction.

5. Cleaning and Maintenance:

- Wipe the exterior of the case with a damp cloth to remove dirt and dust.
- Inspect the interior for any spills or debris and clean as necessary.

Disposal Instructions

- Dispose of the NANUK 935 Protective Hard Case in accordance with local regulations regarding plastic and resin materials.
- Do not incinerate the case, as it may release harmful fumes.
- If the case is no longer usable, consider recycling it where facilities exist.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the manufacturer's contact details provided with your product.

By following these safety instructions, you can ensure the safe and effective use of your NANUK 935 Protective Hard Case. Thank you for your attention to these important guidelines.
