

NANUK 995 PROTECTIVE HARD CASE - NANUK 995 HARD PROTECTIVE CASE WITH FOAM, NO TSA LATCH, BLACK

NANUK 995 PROTECTIVE HARD CASE Measuring 52" inside, the NANUK 995 is our longest case built for extreme protection and transportation of double rifles, primarily. It has earned the trust of sportsmen, sportswomen, hunters, law enforcement and the military. After all, the NANUK 995 is built to survive the outdoors, water, dust, impact and all kinds of abuse. It's made to get in harm's way so the gear inside stays safe and unharmed. It's no wonder that it has also become the go-to case for photo and video pros who also use the NANUK 995 for lighting kits and tripods. Built to organize, protect, carry and survive tough conditions, the 995 waterproof hard case is impenetrable and indestructible with a lightweight, tough NK-7 resin shell and it's four (4) PowerClaw latches. With NANUK's exclusive locking and latching system, your case stays shut and secured until you are ready to open it. For extra security, two latches feature an integrated TSA accepted key lock to keep your equipment securely locked during transit but accessible for inspection by the TSA when required. This indestructible MIL-Spec case is equipped with a lid stay feature to keep the case safely open when in use and the reinforced stainless-steel eyelets can be used to secure additional padlocks. The NANUK 995 protective case comes with two (2) soft grips and ergonomic handles to make it easy and comfortable to transport. The handles feature stainless steel hardware that is spring-loaded to avoid harm when traveling or during shipping. This transport case is also equipped with an automatic pressure release valve. This MIL-Spec injection molded case is backed by a lifetime warranty. NANUK 995 Protective Hard Case Safety Instructions

Introduction

Thank you for choosing the NANUK 995 Protective Hard Case. This case is designed to provide extreme protection for your gear during transportation. It is essential to follow the safety guidelines outlined in this document to ensure safe use and to protect both you and your equipment.

General Safety Guidelines

- Ensure that the case is used only for its intended purpose of transporting equipment such as double rifles, cameras, and related gear.
- Always inspect the case for any damage or wear before use. Do not use the case if it is damaged.
- Keep the case out of reach of children and vulnerable individuals when not in use.
- Use the case in accordance with all local laws and regulations regarding the transport of firearms and equipment.

Specific Safety Precautions for Use

- **Weight Limit:** Do not exceed the maximum weight limit of 175 lb (79.4 kg) to avoid damage to the case or injury during transport.
- **Temperature Range:** Avoid exposing the case to temperatures outside the range of 20°F (29°C) to 140°F (60°C) to maintain the integrity of the materials and seals.
- **Water and Dust Protection:** While the case is designed to be waterproof and dustproof, ensure that all seals are properly engaged before exposure to water or dust.
- **Locking Mechanism:** Always secure the case with the PowerClaw latches and use the TSA accepted key lock when traveling to prevent unauthorized access.
- **Transporting:** Use the ergonomic handles for transport. Ensure that the handles are secure and in good condition before lifting the case.
- **Lid Stay Feature:** Utilize the lid stay feature when the case is open to prevent accidental closure and potential injury.

Instructions for Installation and Usage

1. Preparing the Case:

- Open the case by releasing the PowerClaw latches.
- Inspect the interior foam and ensure it is free from debris and damage.
- If using for firearms, ensure that they are unloaded and properly secured within the foam.

2. Loading Equipment:

- Place your equipment inside the case, ensuring it is well cushioned by the foam.
- Close the lid and engage all four PowerClaw latches securely.
- For added security, lock the two TSA latches with the provided key lock.

3. Transporting the Case:

- Use the soft grips and ergonomic handles to lift and carry the case.
- Avoid dragging the case on rough surfaces to prevent damage.

4. Storing the Case:

- Store the case in a cool, dry place away from direct sunlight and extreme temperatures.
- Ensure the case is closed and locked when not in use.

Disposal Instructions

- Dispose of the NANUK 995 Protective Hard Case in accordance with local regulations.
- If the case is damaged beyond repair, contact your local waste management facility for guidance on proper disposal methods.
- Recycle materials where possible, such as the NK7 resin shell, to minimize environmental impact.
