

NANUK 995 PROTECTIVE HARD CASE - NANUK GEAR PROTECTION USA INC. NANUK 995 HARD PROTECTIVE CASE WITH FOAM, NO TSA LATCH, BLACK

[Shooting Accessories](#) > [Gun Storage](#) > [Gun Cases](#)

NANUK 995 PROTECTIVE HARD CASE Measuring 52" inside, the NANUK 995 is our longest case built for extreme protection and transportation of double rifles, primarily. It has earned the trust of sportsmen, sportswomen, hunters, law enforcement and the military. After all, the NANUK 995 is built to survive the outdoors, water, dust, impact and all kinds of abuse. It's made to get in harm's way so the gear inside stays safe and unharmed. It's no wonder that it has also become the go-to case for photo and video pros who also use the NANUK 995 for lighting kits and tripods. Built to organize, protect, carry and survive tough conditions, the 995 waterproof hard case is impenetrable and indestructible with a lightweight, tough NK-7 resin shell and it's four (4) PowerClaw latches. With NANUK's exclusive locking and latching system, your case stays shut and secured until you are ready to open it. For extra security, two latches feature an integrated TSA accepted key lock to keep your equipment securely locked during transit but accessible for inspection by the TSA when required. This indestructible MIL-Spec case is equipped with a lid stay feature to keep the case safely open when in use and the reinforced stainless-steel eyelets can be used to secure additional padlocks. The NANUK 995 protective case comes with two (2) soft grips and ergonomic handles to make it easy and comfortable to transport. The handles feature stainless steel hardware that is spring-loaded to avoid harm when traveling or during shipping. This transport case is also equipped with an automatic pressure release valve. This MIL-Spec injection molded case is backed by a lifetime warranty. NANUK 995 Protective Hard Case Safety Instructions

Introduction

Thank you for choosing the NANUK 995 Protective Hard Case. This guide provides essential safety instructions and guidelines to ensure the safe use and maintenance of your case. The NANUK 995 is designed for extreme protection and transportation of gear, including double rifles and photographic equipment. Please read this manual carefully to understand how to use your case safely and effectively.

General Safety Guidelines

- Ensure that the case is closed securely before transporting it.
- Do not exceed the maximum weight limit of 175 lb (79.4 kg).
- Keep the case away from extreme heat sources and open flames.
- Avoid dropping or throwing the case to prevent damage to the gear inside.
- Regularly inspect the case for any signs of wear or damage.
- Ensure that all latches are functioning properly before use.
- Do not use the case for transporting hazardous materials or substances.
- Keep the case out of reach of children to prevent accidents.

Specific Safety Precautions for Use

- **Transporting Firearms:**

- Always comply with local laws and regulations regarding the transportation of firearms.
- Ensure that firearms are unloaded and secured within the case.

- **Water and Dust Protection:**

- While the NANUK 995 is waterproof and dustproof, do not submerge it in water for extended periods.
- After exposure to dust or water, clean and dry the case thoroughly to maintain its protective features.

- **Using TSA Locks:**

- The case features TSA accepted key locks for added security. Ensure that you have the key available for TSA inspections.
- Do not attempt to tamper with the locks or latches.

- **Handling the Case:**

- Use the ergonomic handles for lifting and carrying to avoid strain.
- Avoid carrying the case by the latches or locks.

Instructions for Installation and Usage

1. Preparing the Case:

- Open the case by disengaging the PowerClaw latches.
- Remove any foam inserts if you need to customize the interior layout.

2. Loading Gear:

- Place your gear carefully inside the case, ensuring that it is padded and secured.
- Use the foam inserts to provide additional cushioning for sensitive equipment.

3. Closing the Case:

- After loading, close the lid and ensure that all four PowerClaw latches are securely fastened.
- Check that the TSA locks are engaged if you are traveling.

4. Transporting the Case:

- Carry the case using the soft grips and ergonomic handles.
- Ensure the case is placed securely in your vehicle to prevent sliding or tipping during transit.

5. Using the Automatic Pressure Release Valve:

- The case is equipped with an automatic pressure release valve. Ensure it is functioning properly, especially after changes in altitude or temperature.

Disposal Instructions

- Dispose of the NANUK 995 Protective Hard Case in accordance with local regulations.
- If the case is damaged beyond repair, consider recycling the materials where possible.
- Do not dispose of the case in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For safety inquiries or support regarding your NANUK 995 Protective Hard Case, please contact the manufacturer directly. It is important to have a reliable point of contact for any safety-related questions or concerns.

Thank you for following these safety guidelines. Your adherence to these instructions will help ensure the safe and effective use of your NANUK 995 Protective Hard Case.
