

EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE - MAGPUL EHG RG9 GRIP FRAME FOR RUGER RXM FULL-SIZE BLACK

[Handgun Parts](#) > [Frame Parts](#) > [Frames](#)

MAGPUL® EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE Ruger and Magpul have over 100 years of combined experience designing and producing innovative, high-quality products in the firearms space. Magpul recently created a new grip - the EHG RG9 - for the new Ruger RXM, a 9mm NATO pistol made in the USA at Ruger's factory in Prescott, AZ. The RXM is designed for personalization and customization for your self-defense needs. Want a different look or size? The Ruger Fire Control Insert (FCI) is compatible with Magpul EHG RG9 Grips available in Black, Flat Dark Earth, Stealth Gray, and Olive Drab Green in the OEM 15-round Compact size as well as the new 12-round Sub-Compact and 17-round Full-Size. The EHG RG9 Grip packs many valuable features into its comfortable design. It includes a ¾-scale Magpul Trapezoidal Surface Projection (TSP) texture on the front strap, back strap, side panels, and forward index pads, providing improved tactile grip and weapons control where you need it most. To improve ergonomics, the grip also features an undercut trigger guard for comfortable handling of the gun. The magazine well is flared for faster and easier magazine changes, and the heel of the EHG RG9 Grip features a carry bob to minimize printing while concealed carrying. The magazine release scallop provides a recessed but easily accessed space for the magazine release, which has a textured, ridged surface to support more efficient magazine changes. The front of the grip features a universal rail for mounting lights and lasers to further enhance the pistol's utility. Of course, the EHG RG9 uses a strong, durable polymer like other Magpul products. The RXM Pistol ships from Ruger with the MAG1436 Compact EHG RG9 Grip plus two PMAG 15 GL9 15-round mags (the capacity-compliant version of the RXM ships with two 10-round GL9 PMAGs). This Full-Size Grip replaces the factory one for those with larger hands or who need greater capacity. It is compatible with the MAG546 Magpul PMAG® 17 GL9® for the G17 as well as the 21 and 27-round magazines with some protrusion from the bottom of the grip. The EHG RG9 Grip also comes assembled with a Ruger-manufactured magazine release, release spring, slide-lock spring, and takedown-pin spring, and functions with most aftermarket Gen3 parts, so if any of these pieces need to be replaced or upgraded, spare parts are readily available. Made in the USA. FEATURES TSP TEXTURE Magpul's proprietary TSP texturing on the front and backstraps, side panels, and forward index pads of the RXM EHG provide solid purchase on the grip in all conditions FLARED MAG WELL To promote fast, efficient reloads, the RXM EHG has a flared mag well, which aids in loading the gun using Magpul GL9 magazines GEN3 COMPATIBILITY The RXM EHG is compatible with most Gen3 aftermarket parts, such as slide-stop and mag release components SPECS Platform: Ruger® RXM™ Grip Angle: 20.5 deg. Compatibility: The Magpul EHG RG9 Grips only fit the Ruger RXM Pistol. Compatible with other Gen3 magazine release and slide stop components. NOTE: The universal rail is not the same as a 1913 Picatinny rail; different attachment components may be necessary.

Attributes

- Name: [MAGPUL EHG RG9 GRIP FRAME FOR RUGER RXM FULL-SIZE BLACK](#)
- Manufacturer: [MAGPUL](#)

Consumer Safety Instruction Guide for EHG SG9 Grip Frame for Ruger RXM

Introduction

Thank you for choosing the EHG SG9 Grip Frame for Ruger RXM. This product is designed to enhance your shooting experience while ensuring safety and comfort. This guide provides important safety instructions and information to help you use the product responsibly and effectively.

General Safety Guidelines

- Ensure the product is used only as intended and in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the grip frame for any signs of wear or damage before use.
- If you notice any defects or issues, discontinue use immediately and contact the manufacturer.
- Always follow safe handling practices when using firearms.

Specific Safety Precautions for Use

- When installing the grip frame, ensure that all components are securely attached.
- Avoid using the grip frame with incompatible magazines or components that may cause malfunctions.
- Always keep your firearm pointed in a safe direction when handling.
- Use appropriate eye and ear protection when shooting.
- Do not modify the grip frame or firearm in a way that may compromise safety or functionality.
- Be aware of your surroundings and ensure a clear shooting area.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the factory grip by following the manufacturer's instructions.
- Align the EHG SG9 Grip Frame with the firearm's frame.
- Securely attach the grip frame using the provided screws and components.
- Ensure that the magazine release and other components are functioning correctly after installation.

2. Usage:

- Familiarize yourself with the grip frame features, including the TSP texture and flared mag well.
- Practice proper grip techniques for optimal control and accuracy.
- Regularly clean and maintain the grip frame to ensure longevity and performance.
- Follow all local laws and regulations regarding firearm usage and ownership.

Disposal Instructions

- Dispose of the grip frame and any associated components responsibly.
- Follow local regulations for the disposal of polymer materials.
- Do not dispose of the product in regular household waste if it can be recycled.

Contact Information for Further Support

For any inquiries regarding safety, usage, or maintenance of the EHG SG9 Grip Frame for Ruger RXM, please refer to the manufacturer's contact resources.

By following these guidelines, you can ensure a safe and enjoyable experience with your EHG SG9 Grip Frame for Ruger RXM. Thank you for prioritizing safety and responsibility in your firearm practices.
